CLEARFIELD PROGRESS

THE WEATHER
Fair tonight and Friday and cooler Friday.

VOLUME XVII — THE CLEARFIELD PROGRESS, CLEARFIELD, PA., THURSDAY EVENING, SEPTEMBER 13, 1923. — NUMBER 216

Trouble Brews In Southern Europe Which May Involve The Whole Of Europe In War Again

Large Portion of Spanish Army Attempts to Set Up Separate Government at Barcelona.

FRANCE DISTURBED

Paris Sept. 13—Closely censored advices from Madrid today indicated a large section of the standing army has rebelled demanding resignation of the Governmnt.

Th rebellion apparently was caused by two conditions:

1. Dilatory policy of the Government toward the Catalonian Separatists who, in a meeting in Barcelona yesterday, adopted resolutions insulting the King and Queen and demanding immediate separation of Catalonia into an independent republic.

2. The military reverses suffered by Spanish forces in Morocco, fighting against the Moorish rebels, lead by Abdul El K rim. The army blames the Government for these reverses because of its failure to provide sufficient troops, munitions and equipment, despite the repeated pleas of the military commanders.

The movement started shortly after midnight in Barcelona, the seat of the Catalonian movement when the Provincial Captain, General Primo D'Riviera, declared a state of war, demanding resignation of the cabinet and seizing communication lines.

Later advices indicated the movement had spread throughout the country and the majority of the important military garrisons going over to the revolutionists, who are reported to have captured Foreign Minister Alba.

All dispatches indicated the position of the King was not in danger.

The Council of Ministers, in a long session ending early today, refused to resign and retaliated against the army by declaring martial law in Barcelona.

The King was expected to arrive in Madrid today.

Madrid, Spain, Sept. 13.—The Council of Ministers today delcared a state of war in Barcelona as a result of the Catalonian Separatists movement.

All military garrisons in Madrid were ordered to be ready for immediate duty and all troops and men on leave were recalled. An immediate mob lization of police and civil guard was ordered.

Paris, Sept. 13.—Official advices at 3:00 p. m. confirmed reports of a military coup in Spain.

Bulgarians Accive

Athens, Sept. 13.—The Jugoslav Government has ordered the closing of the Serb-Bulgarian frontiers, following extensive invasion of Jugoslav territory by large bands of armed Bulgarians, a telegram from Belgrade stated today.

Italy Obdurate

Geneva, Sept. 13.—The Italian Government today notified Switzerland it cannot accept arbitration of the Fiume dispute between Italy and Jugoslavia, by the Swiss President, owing to difficulties which might arise later between Italy and Switzerland.

War Clouds Loom

London, Sept. 13.—The possibility of an Italian-Jugoslav war within seventy-two hours was agitating the Chancellories of Europe today while they waited anxiously for the terms of the Belgrade reply to the ultimatum of Premier Musselini of Italy, demanding acceptance of the Italian thesis for settlement of the Fiume controversy by Saturday.

It was understood that Jugoslavia's reply already has reached Rome and is being studied by the Italian Foreign Office. The decision of war will depend on the Italian view of the communication.

Great Britain, for the moment, is not directly concerned in the dispute and there is little likelihood that she will be personally involved, although her statesmen realized the danger of a new general European conflagration.

France is in the most delicate posi-

(Continued On Page Two.)

HURRY CALL FOR PHYSICIAN LEADS TO THE BELIEF MAYOR HYLAN'S PHYSICAL CONDITION IS EXTREMELY DANGEROUS

Saratoga Springs, N. Y., Sept. 13.—Mayor John F. Hylan, of New York, was believed gravely ill and his condition very unsatisfactory today as a result of a hurry call sent to his physician, Dr. Frank Monaghan. Dr. Monaghan hurried to the Hylan residence early this morning at the regular conference hour and at the conclusion of the conference hour announced that he would remain there for several hours. The official bulletin stated that the mayor spent a comfortable night and that while there was trouble in the left lung it had not spread during the last twelve hours. His pulse was given as 99, his respiration 30, and temperature 100. When it was recalled that his temperature last night was only 101 it was indicated that the usual nightly drop had not taken place. His respiration is higher than last night. In general the situation parallels that of last Friday night when his condition was critical.

NINE VESSELS OF U. S. INSTEAD OF SEVEN WRECKED SATURDAY

San Diego, Cal., Sept. 13.—Nine destroyers, instead of seven, as first reported, ran on the rocks at Point Arguello Saturday night, it was learned today.

The Somers and Farragut limped into ports here during the night, badly cripipled, pumps working to keep water out of their holds, with tales of their thrilling escape from the fate that overtook their sister ships of the destroyer flotilla.

The two destroyers that escaped damage from the perils of the rocks were following in single file the seven that piled up.

"DEAR" BUSINESS

Emporia, Kan., Sept. 12.—"Petting parties" in Emporia come high. A. H. Lakin and Edward Drum ,sons of wealthy Emporia families, were fined $500 each and Marshall Warren was fined $1,000 upon pleading guilty to participation in spooning parties along the highways.

Think Small Tidal Wave Wiped Out A Town On Lower California Coast

Mexicali, Lower California, Sept. 13.—Terrific storms and a small tidal wave that drove in from the Pacific and caused a great damage in lower California over last week end may have completely wiped out the entire fishing village of Jose de Cabo. The town's 500 inhabitants are believed to have escaped.

Lower California's State Government officials were without official word of the reported disaster. An unofficial report picked up by the wireless station here said a severe storm swept the third lower Californian coast Saturday and that the village was seriously damaged. Relief, it was said, was being rushed from Maza tan.

Miss Adale Smeal, who left Clearfield last Sept. and completed a course at the Ohio Valley Business College, is visiting her aunts, Mrs. Bessie Burge and Mrs. R. R. Stewart. Miss Smeal now has a position with The Homer Laughlin China Co., Newell, W. Va.

NUMISMATIST IS MOST INTERESTING SPEAKER; TELLS ROTARIANS OF NEW IDEAS IN STABILIZING MONEY VALUE

Believes Money of the Future Will Represent a Unit of Purchasing Power That Will Cover the Whole World.

MASTERLY PRESENTATION

The Clearfield Rotary Club had as the club guest at last night's meeting, Mr. Farran Zerbe, of Tyrone, owner of the world's greatest collection of money which he has on exhibition at the Clearfield Trust Company. Mr. Zerbe is one of the leading numismatists in the United States and is an ex-president of the American Numismatists' Congress and a former member of the U. S. Board of Assayers.

He got his early education handling money as a newsboy at the Tyrone station forty years ago. He had a hard time getting hold of the kind he could not spend but finally some fellow unloaded an odd coin on the boy and that act uncovered a bent in the lad which he decided to follow until today he owns the greatest and most interesting collection of money ever gotten together anywhere by any person. His collection numbers 30,000 pieces or specimens and embraces almost every kind of money ever used by man, civilized or otherwise. The collection represents a monetary value, if every coin or bill could be spent at the value it represented when in use, of fifty millions of dollars.

Mr. Zerbe was introduced to the club by his boyhood chum, F. Gurney Smith, and gave the Rotarians a most interesting talk on money, its uses, value and the necessity for its stabilization the world over. The speaker, who could qualify as a financial expert among the very best, paid a splendid tribute to the U. S. Federal Reserve Act, which he styled the culmination of the thought of America's leading economists and financial experts, and was the means of saving this country from financial chaos in 1914 when the New York Stock Exchange closed during the early days of the world war in Europe.

Mr. Zerbe gave it as his opinion that we had only made a start in the right direction and that eventually money would have to be stabilized by the guaranteeing of its purchasing power and when this was done contracts or obligations would be made, not to pay a certain fixed amount in a year or term of years, but the terms would be such that the debtor would be required to make repayment of debt or loan in an amount equivalent in goods or merchandise to what could have been purchased by the sum in question at the time contract or loan was made. For instance, if when the contract was made the sum involved would purchase ten suits of clothes or three tons of sugar, at the end of the contract period the contractor would only be required to supply as many suits of clothes or tons of sugar as the amount in question then would buy, be the quantity greater or smaller than when the contract was entered into.

Mr. Zerbe proved to be a most interesting talker and his remarks as to stabilization of money made a lasting impression upon his hearers.

President Stewart reported on the N. Y. C. trunk line meeting at Williamsport, at which the P. R. R. Co "gummed the cards," and announced an adjourned meeting on this project which would be held in Clearfield Sept. 25th.

Chairman Pearce of the Civic Affairs Committee reported progress on the matter of street signs for the borough, while Chairman Boyce of the Boys' Work Committee did likewise.

Guests present were George Latimer Reed, of Annapolis, Md.; Jack Broome, of Clearfield; J. H. Duke, of Jersey Shore, and F. L. Hill, of Johnstown.

MORE INFORMATION ABOUT THE JUDGE'S PENSION

Clearfield, Pa., Sept. 13, 1923.

Clearfield Progress.

Attentio G. A. Stewart, Esq.

My dear Stewart:—

I seldom complain about published matter and certainly not with reference to the Progress, but in the issue of yesterday in answering an inquiry of Mr. G. O. Neff the pension matter is so discussed as to be entirely misleading.

Apart from the fact that I have always been opposed to this pension law and most Judges regard it as a nuisance, the serious objection is that it fails to print the proviso to the Act, which reads as follows:

"Provided, that no compensation shall be paid under this Act for any period during which such Judge is engaged in any remunerative business or employment."

In view of the entirely unsolicited addition put to the reply to Mr. Neff, it might further be fairly added that this pension is paid by the State, the proportionate share of Clearfield County being less than 60.00 a year and that there are now 53 Judges in Pennsylvania who have served more than one term and if they live will be eligible to pension.

Very truly yours,

SINGLETON BELL.

SKIDDING AUTO IS FATAL TO TWO AND PROBABLY TO MORE

Donora, Sept. 3.—Two men were killed and three probably fatally hurt when a speeding automobile skidded on a sharp curve and crashed into an iron pole on the Donora road at Black Diamond early today.

The dead are Clyde Saylor, 33 and John Greco, 26, both of Donora. Joseph Francis Catoni, 30, also of Donora is in the Monongahela Hospita with a fractured skull and internal injuries.

The driver of the car, Myron Vol who was only slightly hurt was arrested and lodged in the Donora Police Station pending an inquest.

BANDIT HOLDS UP MESSENGER WITH PRECIOUS STONES

Philadelphia, Pa., Sept. 13.—Two daring bandits held up and robbed Gus Prodell, 16, a messenger of a box containing diamonds and platinum valued at $50,000 today according to the police.

The messenger was taking the valuables he had collected from various jewelers to P. S. Tretand a smelter and diamond setter at 933 Arch St.

PUBLIC WILL PAY MILLION AND HALF TO SEE BIG FIGHT

New York, Sept. 13.—More than a million and a half dollars worth of customers will see Jack Dempsey and Louis Angelo Firpo do their demonstration of fight against might at the Polo Grounds tomorrow night. The latest estimates from the office of Tex Rickard set the prospective receipts at about $1,500,000 and the attendance at 90,000.

So tremendous is the interest in the contest between the "fighty" Dempsey and the "mighty" -Firpo that the attendance will be limited only by the restricted accommodations of the ball park and unofficial receipts will be bounded only by what the fans will stand for in the way of extortion of the ticket scalpers.

Estimates today, after a conference at the ticket brokers' office, set the sum which New York and outside points may pay for the fight at close to a million dollars.

Tickets from the $5.50 variety up to $27.50 that have fallen into the hands of the speculators are bringing from $8.80 up to $150. The choice of seats in the first eight rows are bringing in five times their values.

VISITING OLD HOME

Mr. and Mrs E. E. Orcutt, of Clearfield and his parents Mr. and Mrs. Franklin Orcutt ,of Grampian, left yesterday on a two week's motor trip to the State of Maine. The senior Orcutt is a native of Maine and he is going back to visit his old home section.

WEATHER MAN PUTS SEAL OF APPROVAL ON BIG DOLLAR DAY

Even the weatherman is entering into the spirit of Dollar Day by promising a fair cool day tomorrow. This is a combination that is hard to beat. Here, the Clearfield merchants are using their utmost efforts to give you an occasion that bids fair to eclipse anything that the city has ever seen and along comes this kind of co-operation from Friend Weatherman. Could anything work out better?

Truly, the offerings which were made in last evening's Progress and the added offerings that are embodied in the new advertisements in tonight's Progress are greater and better than anything that has ever been offered you since the Dollar Days were instituted thru the efforts of the Progress some seven years ago. Merchandise that is of the highest quality will be offered to you at prices that are so much lower than ordinary, that it will be worth while to be right here on the ground as soon as the stores open in the morning.

The list of Dollar Day participants is now complete and you should read all the advertisements through tonight. There may have been one put in today that holds just the thing that you may have been looking for some merchant to make because you wanted that particular thing.

With roads leading into the city in the finest kind of shape and with the weatherman's promise of a fair and cool shopping day, this city will probably be enveloped by an army of buyers such as has never been see before.

Shoppers should look over the list below very carefully so they will get into the stores that have entered into the Dollar Day events.

Leitsinger Bros.
A. W. Leonardson & Co.

WE'LL GET THE FIGHT

The Progress has made arrangements to get the Dempsey-Firpo fight Friday night blow by blow. Those interested in the fight game and the result of this championship contest are invited to "park" themselves in front of this office about 9 o'clock Friday evening, and we'll tell it to you. We have a megaphone.

More details as to time, etc., tomorrow.

PREDICT FROST IS TO HIT US TONIGHT TO START SEASON

Washington D. C. Sept. 13.—The first light frost that heralds winter's coming was forecasted for tonight by the Weather Bureau for south eastern sections.

Cooler weather throughout the south and south east will prevail tonight and Friday and a light frost probably in north east Ohio New York and New England. The cooler weather will extend as far south as Florida.

NOTICE

Saturday's Progress will be printed early Saturday morning and be at your door when you arise.

Church notices, ad copy and news items for Saturday's issue must be left at our office tomorrow, Friday, before 8 o'clock.

Pennsylvania Births Exceed Deaths At The Ratio Of Two To Five

Harrisburg, Sept. 13.—Approximately five births are reported in Pennsylvania to every three deaths, the State Department of Health announced today.

Figures of the Bureau of Vital Statistics show 113,191 births for the first six months of 1923, and 68,385 deaths.

Of the diseases causing deaths 11,108 are pneumonia, 4,147 influenza, 4,154 cancer, 5,587 bright's disease and 4,358 tuberculosis.

There were 493 suicides and 3,665 accidents causing death.

Miss Freda Colgrove and James Johnson, of Tyrone motored over to spend the evening with the former's parents.

HIGHWAY PARKING ENDANGERS EVERY ONE WHO TRAVELS

Police Patrol for State Roads Will Be On the Job During the Early Part of October.

TO ENFORCE LAW

Harrisburg, Sept. 13—The recent order of Highway Commissioner Pratt D. Wright prohibiting parking on improved roads, and the order of the state fire marshal's office forbidding the erection of gasoline pumps on state highway, or within eight feet of an improved road section anywhere, will have the effect of lessening accidents, in the opinion of officials who are making a study of Pennsylvania traffic conditions.

"What the authorities should do," said a traffic expert, "is to encourage the installation of roadside telephones on every highway in Pennsylvania, because no matter how strict the regulations may be made there are always present on the road, those drivers who disregard all re-

(Continued On Page Two.)

DEMPSEY IN SIX ROUNDS, FARRELL PICTURES

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Sept. 13. (United Press.)—When the gong rang for the first round of the Willard-Dempsey heavyweight championship fight in Toledo, July 4, 1919, Dempsey walked slowly from his corner and circled around the huge Willard. He feinted him five times with his left hand, until Willard stuck out his long left arm. Dempsey then crashed over a right, ducked under the heart, hooked a left to the jaw, and Willard went down.

Willard was tricked into a trap that he had never expected. He thought Dempsey would rush from his corner and charge into him like a wildcat, and when he didn't Willard was completely bewildered.

With Dempsey, that attack was a carefully preconceived plan. He did not do it because Willard was a bigger man. He changed his mind, though, because he knew that Willard was not in shape, that the sultriness of the day and the excitement of the moment had his heart almost pounding out of his side, and he shot his first punch at that very evident weak spot.

Luis Firpo would like to know how Dempsey will come out in the second tomorrow night when they meet at the Polo Grounds. He would like to know what kind of an attack Dempsey will carry against him, whether he will clinch at first and how he will work around to it. Thousands of fans would like to know the same thing.

Firpo is almost in perfect condition. He is a better mat now than Jess Willard ever was. The medical examiner of the boxing commission, who looked him over expressed the opinion that the South American has a better heart than Dempsey.

Perhaps Dempsey will shoot his right hand at the heart and hook the left to the jaw. Perhaps he won't. Only Dempsey knows what he will do, and perhaps Dempsey will not be sure until the breaks of the first round decide his course for him.

Dempsey will land the first punch and perhaps the entire outcome of the fight depends on where that first punch lands and how much there is behind him.

If the champion gets the openings and has his old kick behind the punches, he may finish the fight in five or six socks.

Firpo, fighting his usual style, may require five or six dozen punches. He is not a snappy hitter, there is no one-punch knockout in his fists, and he relies upon the effects of a flock of punches to get what Dempsey gets out of just a few.

Dempsey ought to beat Firpo to every punch, but he cannot avoid being hit, and if the South American lands several of his wild swings to the body, Dempsey will lose a lot of the steam in his blows.

* * * * * * * *

Firpo is a very slow starter. It took him eight rounds to get going against Bill Brennan and he looked bad for five rounds of the fight with Jess Willard. In marked contrast, Dempsey is a dynamic starter, and he is able to maintain a terrific speed.

Before his fight with Tom Gibbons, some experts, going back to the Toledo fight when Dempsey faded in the second and third rounds against Willard, expressed the opinion that the first hard hitter who could stall the rounds with Dempsey would beat him. But Dempsey went fifteen rounds against Gibbons as fast as any lightweight in the business.

Big and strong as he is, hard hitting as he is with his right hand, Firpo is not going to be a sucker for Dempsey. It is permissible to being in a qualification that he will not be easy if he owns a real game heart, and nothing has been shown in his fights that would justify a belief to the contrary.

Firpo may go to the floor several times, but it is going to take a hard punch and a lot of steam to keep him there, and if he comes up many times, as many times as Willard did in Toledo, Dempsey will become a very tired young man.

Regardless of what experienced skill and boxing he is said to lack, Firpo is a natural fighter with a peculiar and, so far, a very effective style. He has done everything that was asked of him and has done it in convincing style.

It is a big assignment for him to go against the world's champion and the greatest fighter of the day without more experience but, as has been pointed out, he is about as good now as he ever will be.

* * * * * * * *

Firpo has a good chance to beat Dempsey. He has the best chance of any of the fighters seeking the championship. Willard quit cold when he fought Dempsey in Toledo, and his own density caused him to miss a chance to retain the championship when Dempsey was not in the ring to answer the gong for the second round.

Firpo is just as big as Willard, just as good as Willard and no doubt he has a better heart. He, at least, will fight back and he fights his best when he is hurt and when the going is bad against him.

On what they have shown in their fights up to the present time, Dempsey looks like he ought to win in six rounds.

But Firpo can's be figured on what has happened before. It's almost sure that he will give Dempsey the hardest fight the champion has ever had, and he has a chance to win the title.

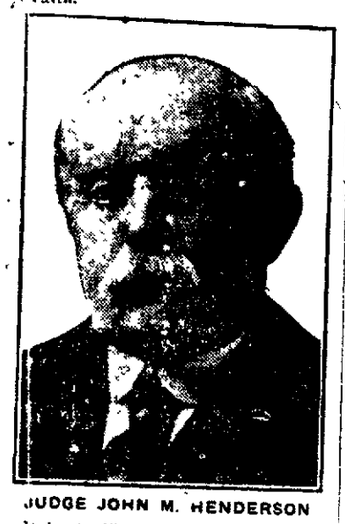
STRONG SUPPORT FOR HENDERSON

Lawyers Throughout State Favor His Retention.

HAS MADE CAPABLE JUDGE

Not a Blemish on Record of Judge Who Has Occupied Place on Superior Court Bench For Over Twenty Years.

Judge John M. Henderson, a member of the Superior Court bench for over 21 years, is a candidate for re-nomination at the primary election on Tuesday, September 18. Lawyers of Pennsylvania have been organizing committees throughout the state in his interest, and it is now assured that his candidacy to succeed himself will have behind it virtually 95 per cent of the members of the bar of this commonwealth.



JUDGE JOHN M. HENDERSON

It is significant that Judge Henderson has the enthusiastic endorsement of attorneys. A practicing lawyer is peculiarly in a position to appraise a judge. To the active trial lawyer it is manifest that a capable member of the bench, such Judge Henderson is, acclimated to the atmosphere, business and methods of a tribunal, as well as thoroughly experienced and honest in his decisions, should be retained in so responsible a place. For it is an unwritten practice in this country, the wisdom of which has been amply demonstrated, to re-elect efficient sitting judges.

What is, perhaps the most striking evidence of Judge Henderson's ability appeared in a newspaper which devoted the best part of three columns to eulogizing Judge Henderson's opponent at the present primary election. In discussing the situation this newspaper printed in the home town of Judge Henderson's opponent, said: "Judge Henderson, who holds the place, if he is a candidate for re-election, will be a hard man to defeat. He has made a good judge."

Judge Henderson is a native of Pennsylvania. He was born a son of a Methodist minister. Before he became of age he enlisted in the War of the Rebellion, fought at Gettysburg, and at the time of Lincoln's assassination was on the Provost Marshal's staff at Washington. At the close of the war, he returned to his home in Meadville, Crawford county and taught Latin in Allegheny College, Meadville. Later he was made head of the Latin department of that college. Upon being admitted to the Bar he soon rose to a high place among the lawyers of his county and the entire western part of Pennsylvania. He was appointed to the Superior Court in 1903, elected that year for ten years and re-elected in 1918.

Judge Henderson's work on the superior bench has won for him the commendation of every lawyer who has come in contact with that court. His record is dignified and honorable, he combining ability with integrity, hard work, fairness and a pronounced judicial temperament. No citizen need hesitate in going among his friends in an effort to create sentiment in favor of the re-election of Judge Henderson. His retention will be a step toward the maintaining of the highest possible standard of the courts of the commonwealth of Pennsylvania. A man or woman who casts his vote for a candidate qualified as Judge Henderson is, can rest serene in the consciousness of having furthered the election of a capable judge. The entire court as well as the Supreme Court, would obviously benefit from the realization that the voters were swift to appreciate a judge's true worth.

Leaders of the Philadelphia, Pittsburgh, Scranton, Harrisburg, Reading, Erie, Wilkes-Barre, Pottsville and other large centers have unanimously endorsed the candidacy of Judge Henderson.

A Philadelphia committee, absolutely non-partisan in its constituency, including in its membership Republicans, Democrats and Progressives, has been formed, the purpose of which is co-operating with political leaders throughout the state to the end that the largest possible vote may be polled for Judge Henderson next Tuesday.

The committee in Philadelphia in its campaign is pointing to the high attainments in the legal profession of Judge Henderson, and is impressing upon the voters that he is eminently fitted in every way to perform precisely the onerous duties of the distinguished office of judge of the Superior Court.

The present primary election is so complicated because of political contests for local offices all over Pennsylvania that there is a possibility of the Superior Court judgeship being lost sight of by many voters. This is unfortunate because if there is any office for which popular interest should be stimulated, it is that of judicial offices and, particularly, one as important as the Superior Court. The purpose of the committees formed for Judge Henderson is to stress the importance of his retention on the Bench, believing that by effecting his re-nomination they are conferring a distinct public benefit: that a judge of proven merit is thoroughly deserving of primary consideration in preference to an outsider.

There is no question of Judge Henderson's re-nomination and re-election. Nevertheless, lawyers and laymen should do everything within their power to promote his candidacy in order that his majority may be of an overwhelming character.

Lines to Be Remembered.

Sin has many tools, but a lie is a handle which fits them all.—Holmes.

ODDS AND ENDS AND THINGS

By J. D. C.

Emile Coue, the great French "auto suggestionist" or bunk artist, 'as you like it," used to have a formula for those who would drive disease away. Coue used to say "Every day in every way I am getting better and better." That was too long for us rapid traveling Americans so the great Emile says all is necessary for us is to say "Oh hell, I'm well," and after repeating the order a time or two, pains and aches all desert us.

* * * *

According to the figures now on file in the office of the County Commissioners, with an estimate as to the number from DuBois, there will be approximately 37,000 persons in Clearfield County eligible to vote at the primary election on Tuesday, September 18, 1923.

A further delving into these figures produces very little encouragement for Democracy, but as hope springs eternal in the Democratic breast and a Democrat is never so happy as when given an opportunity to fight, a little thing like a 7,000 majority means less than nothing in the life of the average Democrat.

The registration figures as compiled from the assessors books by the clerks in the Commissioners' office following the return of the September assessment show the different parties to have registered as follows:

Republicans	18,443
Democrats	11,756
Prohibitionists,	1,422
Socialists,	813
No Party	1,556
Total	33,990

DuBois, being a third class city, has personal registration and therefore the DuBois figures are not in the above total.

The law provides three registration days for third class cities and DuBois voters will complete their registration on Monday, September 29th. There are at present 1660 voters registered in the third class city as a result of the first two registration days. In former years DuBois registered as many votes on the last day as presented themselves on both the second and third days. Judging the future by the past DuBois registrars look for a total registration of approximately 3500, and the figures will no doubt reach that number.

Adding this total to the figures for the balance of the county will give us the grand total of 37,490.

Of the 1660 DuBois voters thus far registered 1307 are Republicans, with about 300 Democrats, the balance being chalked up as Prohibitionists, Socialists and No Party.

* * * *

Tuesday's Primary Ticket

For the purpose of refreshing the memory of Mr. Average Voter we give herewith a list of the candidates whose names will be found on the Primary ballot at Tuesday's primary. The names will appear under the different headings in the order here given:

Republican Ticket

For Judge—A. R. Chase, of Clearfield and Hazard A. Murray, of Clearfield.

County Controller—Grant H. Thompson, of Clearfield and A. G. Woodward, of Curwensville.

Prothonotary—George W. Ralston.

Recorder of Deeds—Milford Bratton.

County Commissioner—(two to select)—Samuel Gelby, Houtzdale; George W. Fox, Gulich Township; Jesse E. Dale, DuBois; W. B. Stephenson, Bell Township; William T. Thorp, Penn Township; John G. Maines, Bradford twp.; Thomas D. Small, Curwensville; Joseph E. Phillips, Clearfield; T. R. Weimer, DuBois and John Boyce, Clearfield.

Democratic Ticket

For Judge—J. F. Snyder, of Clearfield and Singleton Bell, of Clearfield.

County Controller—W. A. Hagerty, of Clearfield.

Prothonotary—John S. Chaplin, of Clearfield.

For Register and Recorder—E. V. Brown.

County Commissioner—(Two to nominate)—W. J. Hoover, Lawrence Township; W. S. Hand, Sandy Township; Blake W. McCracken, Mahaffey; Thomas A. Bowman, Woodward Township; M. L. Farrell, Clearfield; Mrs. Lila Dunlap, of Sandy Township Harrison Straw, Goshen Township.

There ought not to be any trouble about getting a ticket on primary day because while there will be but 37,000 registered voters the County Commissioners have had a total of 70,000 ballots printed. This number includes 55,134 official ballots, 11,921 sample ballots and 2,197 "absent voters ballots."

Vote for J. G. Mains.

HIGHWAY PARKING

(Continued From Page One.)

fety measures, "take a chance," and wreck not only themselves but others. The greatest offenders in this particular seem to be drivers from the state of Maryland; and in the southern tier of Pennsylvania counties it is hazardous to drive on Sundays because of the apparent ignorance or wilful carelessness of the men from Maryland. On isolated road sections where the highway emergency phones are not installed it is difficult to secure assistance. I know of several instances in which lives have been saved through prompt use of a nearby telephone; and the State should see that the service is universal in Pennsylvania."

The highway emergency telephone people this week, tendered the State Highway department keys to all telephone boxes on state highways, for use of the motorcycle patrol now being recruited. This patrol will first go into training at Mt. Gretna for about four weeks and it will make its appearance in Pennsylvania highways about the middle of October.

The "No-parking-on-the-road" rule issued in August by Highway Commissioner Wright is not observed in one section of the State. This rule forbids all parking which will "interfere with orderly passage of two-way traffic." It will be rigidly enforced by the new motor patrol.

Long Lines

It's the long line that makes one look thin. The line may be in the material itself—such as a stripe—or it may be in the style—a long panel, for instance. Large figures

SPECIAL COUNCIL MEETING TONIGHT

There will be a special meeting of Town Council this evening at 8 o'clock. This meeting is called for the purpose of assessing the Leavy avenue paving cost and disposing of several other pressing matters.

Mrs. E. C. Shickling and daughter Mildred and Edward are visiting in Philadelphia and Camden, N. J.

TROUBLE BREWS

(Continued From Page One.)

tion of the outside powers since she has close ties with both the little entente and Italy and is sure to create bitter resentment whichever side she supports. It is equally impossible for Premier Poincare to remain neutral.

The chief danger viewed by statesmen here lies in the unrestrained exercise of Premier Mussolini's enthusiasm for entrance into a campaign of Italian prestige and expansion. This is a program France wants to curb.

Mr. McClure Weltman and son Clifford have returned from Sheffield Pa., where they visited Mr. Waltman's brother. This was the first meeting of the brothers in thirteen years and the visit was a particularly pleasant one.

BEAUTIFUL FERNS

SPECIAL FOR DOLLAR DAY

$1

We have begun to specialize in Ferns at our green houses, and we bought these Ferns to go into our own fernery. But we also want to give you something good for Dollar Day and will offer these generous size Ferns for the day only at the price.

Come and get them. They are good sturdy plants and should develop into huge Ferns before the winter is over. We will tell you the best methods of developing, them, too.

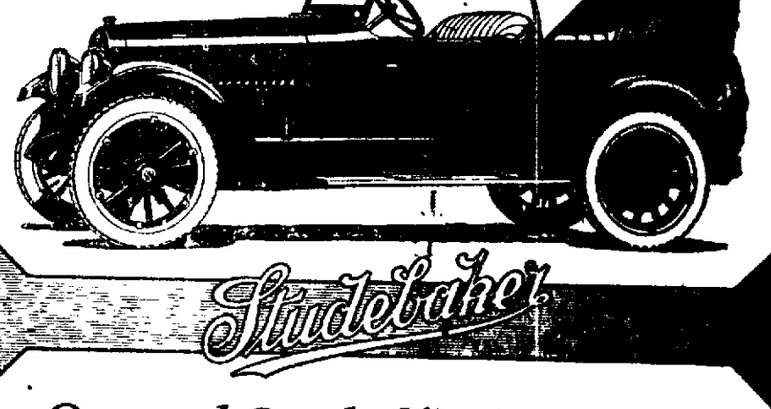
STUDEBAKER SPECIAL-SIX TOURING CAR $1275



Studebaker

One and One-half Billion Miles of Satisfaction

Studebaker Special-Six owners have driven their cars a total of more than one and one-half billion miles!

This enormous mileage has been piled up in everyday service over every conceivable kind of road and under every condition of weather throughout the world.

And no Special-Six has ever worn out. So far as we know there isn't a single dissatisfied owner. These one and one-half billion miles of satisfactory service prove positively the outstanding merit of the Special-Six.

It is the strongest recommendation possible for dependable performance, economical maintenance and long life. It is striking evidence of the high quality that is responsible for Studebaker Special-Six leadership in fine car sales.

To call a car "special" doesn't make it special unless there is special merit to back up the name. The Studebaker Special-Six is special not only in name but in performance. One and one-half billion miles to its credit are proof positive that it lives up to its name.

The name Studebaker is assurance of satisfaction.

One-piece, rain-proof windshield, automatic windshield cleaner and glare-proof visor. Quick-action cowl ventilator. Rear-view mirror. Combination stop-and-tail light, tonneau lamp with long extension cord. Running board step pads and aluminum kick plates. Eight-day clock. Thief-proof transmission lock.

Six Month.s.....$2.00 One Month .. $ .50

By Carrier 12 cents per Week Payable to Carrier.

Entered in Post Office at Clearfield, Pa., as second class mail matter.

Those who are inclined to believe that the proposed new trunk line via the Clearfield gateway is not making any progress are invited to take a lesson from the signs of the times.

The very fact that the Reading Railway, the Pennsylvania Railroad and other great carriers affected directly and indirectly by the proposal, are giving it closest attention and leaving no stone unturned in a campaign against it, is evidence that the N. Y. C. proposal has sufficient merit to cause them to think that it will have a great deal of weight with the Interstate Commerce Commission.

The Reading is so wrought up over the prospects of the N. Y. C. plan being accepted that they have practically forgotten their own case and have trained all their guns on opposing, much in the same manner as some candidates who believe they can ride into office over the remains of a reputation besmirched opponent.

The Pennsylvania Railroad day before yesterday saw fit to run a special train carrying officials into the city of DuBois, where the local situation was thoroughly canvassed. Their mission, they frankly admitted, was the proposed trunk line.

School has started and nearly three thousand happy faced future citizens of the best city on earth, at least that we know about, are daily wending their way back and forth across the streets to and from school.

Kids will be kids and, regardless of all the parental advice that it is possible to dole out, those who are high spirited and without a single care in the world will disregard all the rules of personal safety and subject themselves to traffic dangers.

Be this as it may, the accident on Market Street yesterday shows the need of every parent once more cautioning the children about being careful on the streets. The little fellow who was bumped and knocked over by a car backing out of a stall should not have been there. His place was on the sidewalk and, if it was necessary for him to cross the street, crossings are provided for that purpose.

The other accident, the one in which a car and a truck came together, gave another object lesson. In less time than you could say "scat" a half hundred little chaps,—and little girls too—from six to fourteen years of age, crowded out into the street filled with traffic. Passing cars could have easily hit any one or a dozen of them.

Gather the brood together tonight and lay down the rules once more. It may save a life.

Just What Will Happen

to your business, your money, your securities and your other property when it ceases to be your property and becomes your estate?

How will this change that will take place at your death affect those who are now dependent upon you for livelihood and comfort?

What steps can you take now to secure your family against the hazards and plights that will confront them?

These are important questions and demand care and thought and knowledge in their answering.—Consult our trust officers.

"The Bank of Personal Service"

Progress Editorial For Women

FOR SUMMER 1924 AND AFTER

By FLORENCE DAVIES

Although there are still many summer holidaymakers who have yet to come home from their brief resting spell among the lakes and mountains, along the national highways, among the national parks, or in the quiet of country villages, it is not too soon to begin to think of next year's vacations.

We say this because we have just been reading about a report which the Consumers' League has issued, on manufacturers who give their employes vacations with pay.

There are so many more who don't do it. And the reasons for doing it are so well summed up in the Consumers' League Bulletin. Moreover, the survey of which the report is the outcome, shows that there are many practical and economical plans by which manufacturers are arranging these with pay vacations.

And perhaps the strongest plea of all is made in the interest of workers who do the same trivial thing over and over through the eight hour day, with nothing to stimulate the brain cells that sleep through the deadly monotonous task.

Simple justice to these workers, it is urged, should entitle them to equal vacation opportunities with office workers, whose duties are more varied and more interesting, and often put more money into the pay envelope.

Suppose you sat all day before a punching machine making three holes in one bit of brass after another. Wouldn't you long for a change with every fibre of your weary body? Of course you would. The office worker who comes in contact with all sorts of people during her day; the girls behind the counter, the woman in the home who must attend to the iceman, postman, cleaning woman, lace peddler and other back door and front door callers during her busy day, has at least variety in her tasks and a chance that something or somebody that she very much wants may be just around the corner.

But the girls whose hands or feet move automatically through the same process hour in and hour out, day in and day out, using only one set of muscles and the smallest possible amount of brain power in the operation, needs someone to plead her cause as it has never been done before. May the Consumers' League persuade many times more than 49 employers—this season's white list—to see that the pay envelope holds vacation money next year.

The 49 all agree that the system of vacation with pay, "is sound industrial practice. That it is an investment that yields returns in renewed health and loyalty. That it does not necessarily interfere with the operation of the plant."

LAST LEGION DANCE OF THE SEASON

The American Legion stages their last Park dance of the season this evening in the Exposition Hall at the Clearfield Driving Park. This dance is a fitting climax to the series of dances this up-and-doing outfit has been giving the people of this section all summer. The orchestra for this evening's dance is of more than passing notice as it is led by Prof. C. L. Major, a former Clearfield boy. The Major-Botts orchestra is another of those instances where a Clearfield boy has started something and had the Clearfield way of seeing it thru.

DAUGHERTY TELLS COOLIDGE NATION IS SLOWLY DRYING UP

72,489 Convictions In Federal Courts In Past Year; 3,000 Years In Sentences Meted Out.

MILLIONS IN FINES

Washington, Sept. 12.—Conviction of judges, attorneys, federal and state officials and millionaires among the host found guilty of violating the prohibition laws was detailed in a report submitted to President Coolidge today by Attorney General Daugherty.

A synopsis of the report made public with the assent of the President, reviewed the federal judiciary's work in administering the prohibition law in the first 41 months of its operation. It showed that since the statute went into effect, January 16, 1920, more than 90,000 cases had been terminated in United States courts, with 72,489 convictions and fines aggregating $12,467,660. There has been a constant yearly increase in prohibition prosecutions, the report showed, while jail sentences for the past 23 months have totalled more than 3,000 years.

Daugherty's report also disclosed that more than a year ago he sent a special series of instructions to district attorneys on prohibition enforcement, demanding a more relentless campaign against bootleggers and other prohibition violators, especially "clouses," "rings" and so-called "leaders," in all large cities.

80 Per Cent Guilty.

In 80 per cent of federal court cases, the report said, the defendants were found guilty. Although the records for the last fiscal year are not complete, the report estimated that there had been at least 10,000 more convictions than in the preceding year and 15,000 more than two years ago. These figures, Mr. Daugherty said, indicated a stricter enforcement in every section of the country.

The attorney general told the President he was of the impression that the government's enforcement officials radiating from Washington were coping with the liquor problem in a highly satisfactory manner. Department of justice officials and agents, he said, were co-operating whole-heartedly everywhere and the co-ordination was resulting in general tightening of lines about liquor law violators.

73 Cases Every Day.

Prohibition cases have been brought in the federal courts at an average of 73.4 a day since the law went into effect, the attorney general said, but this rate was exceeded during the last year, the average being 211 a day. During the first five months of this year 4,497 more cases were disposed of than during the entire 1921 fiscal year.

Daugherty reported that the "padlock" provisions of the prohibition law had been one of its most effective weapons, enabling closing of many buildings where liquor was sold upon judgments that they were "nuisances." Increase of jail sentences also has been a deterring influence, Daugherty told the President.

Many of the big prohibition cases of the past year were reviewed in the report, including the Gary, Ind., conspiracy case, in which several officials were involved; that of the La Montagne brothers of New York; the conviction of former Mayor Frank X. Schwab, of Buffalo; John Douglas, clerk of the courts of Allegheny county, Pa.; Matthew F. Griffin, former secret service official at Philadelphia, and prohibition officials in Wisconsin and other states.

EUROPE'S GOAT!

KEPLER, OF BUTLER, PLEADS GUILTY, GETS SENTENCE SATURDAY

Butler, Pa., Sept. 13.—A. L. Kepler, former vice president of the Citizens Insurance Agency and Mortgage Company, plead guilty here today to fraudulent conversion of funds from the state had offered some evidence at his trial. He will be sentenced Saturday. Other charges of embezzlement and removing property for the purpose of preventing it from have been dropped temporarily. Kepler was the promoter of the [illegible] squab farm.

MRS BLAKE McCRACKEN BREAKS HIP ANKLE

Mrs. Blake W. McCracken of Mahaffey, was brought to the Clearfield Hospital last evening suffering from a fractured [illegible] when she fell from an [illegible] truck at Mahaffey. Mrs. McCracken who is one of the Democratic candidates for County Commissioner, was in Clearfield campaigning when notified of his wife's injury and was at the hospital waiting for her when she arrived. The break is a bad one.

Curwensville's Own Column

Chas Dawes, one of Curwensville's local coal operators, spent a portion of this week in Philadelphia, on business relative to his coal trade.

Mrs. Mary Hudson, who spent the last two weeks visiting her parents Mr. and Mrs. Lew J. LaPorte, north Pine street, left yesterday for her home in Olean, N. Y.

Thomas Reed and wife were over from Osceola yesterday for a brief visit with his parents Mr. and Mrs. V. M. Reed, north Pine street.

The Ladies Auxiliary of the American Legion who have in charge the erection and purchase of a suitable monument to be placed in honor of Curwensville's soldier dead of three wars, had intended to have the marker ready for Armistice Day, but owing to unavoidable circumstances which have arisen lately, this plan had to be postponed and it has been decided to await until next Memorial Day to celebrate the occasion.

John Pifer, who makes it his special business to bore deep down into Mother earth in search of coal, iron ore, fire clay, or even lead, gold or silver, is attending the Brookville fair this week.

Miss Kate Smith a daughter of Mr. and Mrs. Oliver Smith, entertained a number of her young lady friends at her State street home yesterday evening. No males were permitted to enter the front or rear door and the ladies had just a fine time all to themselves.

Mrs. J. A. Gifford and daughter, Miss Maude, were guests in the home of Mrs. Joseph Whittaker, near Bridgeport, for a week. Wednesday they left for Springfield, Missouri, to spend the winter months with a married daughter and sister who lives there. For many years the Gifford family were residents of Curwensville, but removed to Clearfield where Mr. Gifford died January 2d, 1910. Miss Maude lately resigned as a cook at the Clearfield hospital.

The funeral of E. J. Kelly will be held from his late home on west end of State street, Friday forenoon. Interment of his body will be made in the Catholic cemetery at Clearfield.

Samuel Chuckabank, Jr., has purchased the Frank Fullerton homestead on Bloomington avenue and has removed his family thereto from a flat in the Rose Sweney block on State street.

Ira Shaffer claims the button for the best elderberry pie manufacturer in this section. "Doc" Thompson, who considers himself a competent judge, will go on record as a voucher for this broad statement, even though it is the first pie that Ira has tried his hand at for 55 odd years. The pie was made on Sunday, but "Doc" avers that it did not alter the good taste of it in the least.

The financial report of the Yellow Dog Labor Day celebration at Curwensville, has been completed and shows receipts of $4616.11, with expenditures of $3265.08, which leaves $1351.03 available for Irvin Park improvement. The detailed itemized report of receipts and expenditures is in the hands of the Committee on Finance and can be seen by any person interested. The report follows:

Nellie Revell Wins

Nellie Revell, famous press agent, has left St. Vincent's Hospital in New York City. She lay on her back there four years. Doctors said she would never be able to get up, due to her spine affliction. She is now able to sit up and walk a bit. Here she is surrounded by flowers, fruits and gifts of friends after her home-coming.

Hindoo Pagodas.

A pagoda is a Hindoo place of worship, containing an idol. It consists of three parts: An apartment surmounted by a dome, resting in columns and accessible to all; a chamber into which only Brahmins are allowed to enter, and a cell containing the statue of the deity, closed by massive gates. The most remarkable pagodas are those of Benares, Siam, Pegu and particularly that of Juggernaut, in Orissa.

Post Office Business Enormous.

In every single hour of the 24, 1,400,000 letters are mailed. Every day 33,600,000 letters go into the letter boxes. There are 21,000 railway clerks who cover a distance of 215,000 miles daily.

Watch the Smart Alec.

When some smart Alec tries to get you to invest in something, ask yourself if you have all the home comforts and labor-saving machinery you want.

Vote for J. G. Mains.

Mind Must Be Properly Employed.

The mind has a certain vegetative power which cannot be wholly idle. If it is not laid out and cultivated into a beautiful garden, it will of itself shoot up in weeds or flowers of a wild growth.—Steele.

Machine Does the Work.

The final operation in the manufacture of jar caps, salve and pill boxes, bottle caps and similar articles, such as threading, knurling, beading, curling and trimming, are performed by rolling, using an automatic machine.—Scientific American.

Call for Affidavit.

I had been on a visit to my father and was returning home with an expensive typewriter he had given me. He insisted I write my name and address on the bottom. I put it in the rack on the train, to go about it, and got off. A few days later it came to me by express. I never knew who found it and was so kind to return it.—Chicago Journal.

(a) Public Notices

1—Lodge Notices.

DEER HUNTERS ATTENTION
Buckey Richards' New Hunting Lodge opened this season on the Clearfield mountains 4½ miles from Curwensville. Accommodations are right and the eats are great. Can handle about 23 or 24 hunters. Located in one of the best deer hunting spots on the mountains. For any further information call on Buckey Richards, the man who has cooked for 18 seasons on the mountains. 9|13|3t|ch

PIANO TUNER
W. E. Beck, the practical piano tuner of Lock Haven, Pa., will be in town the next two weeks. Phone or leave address at Woodward & McPherson's Drug Store or Dimeling Hotel. 9|13|3t|ch

Stolen: Radio set on South Fourth street. Woman saw boy break lock and go in shed. Return set at once or will be arrested. 9|13|3t|ch

The W. C. T. U. will meet at the home of Mrs. Runkett on Locust St. on Friday evening, Sept. 14, at 7:30 p. m. 9|13|1t|ch

NOTICE BIGLER
The Ladies' Aid of the Bigler U. B. church will hold a chicken and waffle supper on Saturday evening, Sept. 15. Music by the Bigler Citizen's Band. Be There. 9|11|4t|ch

NOTICE
It has been brought to my attention that persons are circulating reports throughout the County that I have withdrawn as a Candidate for President Judge of Clearfield County at the coming Primary, as well as numerous other stories of a similar nature. Such tactics are frequently used as part of a political campaign and generally during the closing hours when a candidate is unable to correct any false or misleading statements.

I wish to warn my friends throughout the County to beware of all such statements and to carefully investigate before voting. I am a candidate and expect to be nominated at the primary, and believe my record as a Judge justifies the voters of the county in supporting me.

Tom Sims SAYS---

The real trouble with all narrow-minded people is they are too narrow-minded to admit it.

This is the season the school boy think a little knowlede is a dangerous thing.

Staying up all night may make you as wise as an owl, but owls have no sense during the day.

Tomatoes once were called love apples. This may be why they are best taken with a grain of salt.

There are so many new kinds of stamps and money you need a college course to recognize them.

What this country needs most is a law requiring all bills to be sent anonymously.

Taking a drink of the average bootleg booze will not run a man crazy. It doesn't have to.

How times change. Only stage robbers left are the chorus girls. They loot the fast males.

Don't throw away your straw hat. Be honest. Take it back to the cafe where you got it.

Powder sprinkled on her partner's neck will keep a girl's nose from getting shiny at a dance.

Rich men should keep their sons away from dances. Girls always want to catch the fresh heir.

Keep cold cream covered or you may find a fly in the ointment.

CHARTER NOTICE
Notice is hereby given that an application will be made to the Governor of the State of Pennsylvania, on the 19th day of September 1923 by THE FULLINGTON AUTO BUS COMPANY, under the provisions of the "Corporations Amendment Act of 1883, P. L. 122, and its supplements," for the improvement, amendment and alteration of its charter, the character and object of which amendment is as follows:

Section two of the said original charter to be amended to read as follows:

2nd: Said corporation is formed for the purpose of owning and operating motor vehicles and similar conveyances for the transportation, as common carriers, of persons, freight, merchandise and other personal property, therein, for hire, in the counties of Clearfield, Center and Blair, and particularly between the following places: Borough of Clearfield, Borough of Curwensville, and also between the Borough of Clearfield, Village of Woodland in Bradford Township, Village of Bigler in said Bradford Township, Borough of Wallaceton, Village of Blue Ball in Boggs Township, Borough of Philipsburg in Center County, Village of Retort, Village of Sandy Ridge in said Center County, Village of Bald Eagle, Village of Vail in Blair County, Borough of Tyrone in said Blair County, over the following routes: over the streets of the Borough of Clearfield and also the public road in Lawrence Township, which is an extension of Turnpike Avenue in the said Borough of Clearfield; and over public roads between the Borough of Clearfield, Lawrence Township, Pike Township and the Borough of Curwensville; and over public roads in Lawrence Township and Bradford Township to and through the Village of Woodland in said Bradford Township, to and thru the Village of Bigler in said Bradford Township; thence by public road in Bradford Township to and through the Borough of Wallaceton; thence by public road through Bradford Township and Boggs Township to and through the Village of Blue Ball in Boggs Twp.; thence by public road to the Borough of Philipsburg in Center County, and in the Borough of Philipsburg by the public streets thereof to the corner of Presqueisle and Main Street; and from the Borough of Philipsburg, Center County; thence following State Highway Route No. 57 to and through the Village of Retort, to and through the Village of Sandy Ridge, in Center County; thence to and through the Village of Bald Eagle, to and through the Village of Vail, in Bair County; thence to the Borough of Tyrone, in the said Blair County, and in the Borough of Tyrone by the public streets thereof to the corner of Pennsylvania Avenue and 10th Street and from said corner along Pennsylvania Avenue to the end thereof; and between such other points in the said counties, or in any of them, by such other route, or routes, as shall thereafter be approved by the Public Service Commission of the Commonwealth of Pennsylvania, as evidenced by its certificate, or certificates of public convenience.

And for this purpose to have, possess and enjoy all the rights, benefits and privileges of the Act of Assembly and its supplements.

ARNOLD & PLATT,

CHEAP MOVIES AND TRASHY STORIES BLAMED FOR BOYS' 'TORTURE' DEATHS

By ROB DORMAN
(NEA Service Staff Writer.)

Belmar, N. J., Sept. 10.—"Wild West" movies plus lurid detective tales plus juvenile imitativeness equals tragedy.

Such a sum brought about the death of two others, held for the grand jury. The deaths came by fire while the four youngsters were playing "Indian" after the fashion of the cheaper movies.

Caleb Hubbard, 18, his brother Willie, 16, Hubert Forman, 16, and Charlie Spindler, 11, were the actors in the tragedy. But only Caleb and Hubert are alive to tell the tale. One is in jail in Freehold, the county seat; the other is at home under bail.

Here, for the first time, is the story of the tragedy, as they told it, in an exclusive interview with NEA Service.

After an afternoon of swimming and baseball, the boys began skylarking as they turned their steps homeward.

They wanted to have some excitement, but didn't know just what. Suddenly, one of them who had been feasting up on detective stories, suggested:

"Let's play sleuths."

In a winkling, Caleb and Hubert took the lead. As detectives, they seized and bound the other two boys with twine. Then they put them in a large packing case found in a hollow in the woods, back of the gas company's plant. This was the jail.

But this wasn't exciting enough. A search was made of the pockets of the prisoners. Some matches were found.

"Why not burn the prisoners at the stake, like the Indians did?" was the idea suggested by one of the boys looking at the match. No quicker said than done.

HUBERT FORMAN AND CALEB HUBBARD (RIGHT)

The two bound boys were stood against a tree in lieu of the traditional stake. A small piece of excelsior was fired.

Ordinarily no harm would have resulted—but the boys had failed to take into account the oil-soaked grass.

Flames shot high in the air, enveloping the two victims.

Frightened by the cries of the two burning boys, Caleb and Hubert dashed in to free them. They broke the twine that bound the boys, burning their own hands as they did so. But the damage was done. Willie and Charlie died soon after.

A sobered Hubert sits at home with his mother. The smile of youth is missing from his face. He is out on bail awaiting the action of the grand jury.

"We didn't mean to hurt them," he says. "We were just playing like we saw in the movies."

His voice is flat, with a dead undertone of horror. From his face, with its high cheekbones and heavy eyelids, his eyes look out on the world with a sullen look of defiance.

He defends his friend Caleb vigorously.

"Caleb is all right. It would have been just the same with any other boys. People don't like Caleb because he's poor."

But Hubert's mother is not a ly disposed toward Caleb.

"I didn't want Hubert to play with him," she says, "but he would. Now look in what a mess he is."

Who lighted the fatal match is a secret.

With a boy's loyalty, Hubert says, "I don't remember."

Caleb, in jail at Freehold, is equally reticent.

He also "doesn't remember."

Caleb is undersized for his age. His pinched face is sallow, with sullen eyes looking forth suspiciously upon a world that has never held much of pleasure for him.

He admits his fondness for lurid detective stories.

Tears came to his eyes when questioned about his dead brother.

"We didn't mean any harm," he cries. "I loved Willie, and wouldn't have had anything happen to him for anything.

"I carried him to the water after we had broken the string that bound him. My hands were all burned." He displayed two hands on which the burns were still visible.

The tears rolled down his cheeks.

But, like Hurbert, he refuses to say who lit the fire.

Trashy literature and cheap movies have once more taken their toll.

That Was Different

"I could get no speed out of the motor car you sold me," said Brown. "You told me you'd had it overhauled, but it was still full of carbon." "So I was," replied Jones, "but I thought you'd like a little variety."

Where Do You Get Off?

If a man gets off a car backward when you taste with your mouth, why is it that when he gets off a car backward he usually gets off at the front end?

Camel Something Like Coat.

A camel in the midst of green grass languishes and grows thin, but surrounded by sagebrush and thorny desert vegetation he is thoroughly happy and contented.

Captive Mocking Birds.

Mocking birds when taken from the nest young readily become accustomed to cage life and may live for many years. They are easily taught and often improve greatly with careful training.

Insects Used for Cochineal Dyes.

Nineteen thousand insects are required to make one pound of cochineal dye. Only the bodies of the females are used. They are wingless and each one produces over 1,000 young which spread over the plants or piety.

Trick With Letters.

Here is a bit of catch spelling from the Pathfinder. Ask your friend if he can spell "capitalization" with only seven letters. The answer is "I-zation," which is capital I-zation, isn't it?

Tunnel Took Seven Years to Build.

The Simplon tunnel, the longest railway tunnel in the world, was commenced Nov. 13, 1898, and was completed in 1905. It was 12½ miles in length and gives France and Switzerland direct communication by rail with Milan, Italy.

The Wrong Course.

Some fellows don't try to master their work; they are too busy trying to work their master.—Boston Transcript.

A LAUDABLE ENTERPRISE

Friday evening, September 14th, the good people of the Reedsville vicinity are asked to gather at the Reedsville chapel at a festival which will be held for the purpose of raising funds to re-roof the chapel.

Daily Meal Suffices Eskimo.

Of races which inhabit the world today the Eskimos stand first as devourers of meat. They usually eat but one meal a day and then gorge themselves with tough meat so that they develop big jaws and enormously distended abdomens.

Unproductive Labor.

Jud Tunkins says his hired man has got so interested in politics that about all the work he does is guess work.

Both Flimsy.

Seaside engagements are usually flimsy affairs. During the hot weather love and clothing are both light weight.—Boston Transcript.

W. C. T. U. HONOR CRUSADERS OF OTHER DAYS IN NATIONAL CONVENTION AT COLUMBUS, OHIO

OFFICERS OF THE NATIONAL W. C. T. U.

Reading from left to right (top row): Mrs. Margaret C. Munns, Treasurer; Miss Anna A. Gordon, World and National President; Mrs. Ella A. Boole, Vice President (Treasurer of the World W. C. T. U.). Middle row: Mrs. Elizabeth Preston Anderson, Recording Secretary; Mrs. Frances P. Parks, Corresponding Secretary. Lower right: Mrs. Sara H. Hoge, Assistant Recording Secretary.

CRUSADERS of early temperance days are being honored throughout the sessions of the Crusade Anniversary Convention of the National Woman's Christian Temperance Union which began in Memorial Hall, Columbus, O., on Sept. 4, and continues until Sept. 14.

Several thousand women will take part in a March of Allegiance, a spectacular street parade, in which all the delegates will join together with leading women from all the other women's organizations in Columbus, Saturday afternoon, September 8. Floats showing the work of the twenty-six departments of W. C. T. U. work and the progress of the organization since 1874, will be a feature of this parade.

Mrs. John Gordon Battelle, appointed a member of the National Republican Committee by the late President, Warren G. Harding, headed a Committee of 5,000 Columbus women, who welcomed the W. C. T. U. delegates from all over the United States.

Distinguished speakers, addressing various sessions of the convention, are: Gov. Donahey, Miss Grace Abbott, Senator Fess, Representative Cooper, Mrs. Mabel Walker Willebrandt and Dr. Mary Harris Armor, "the Georgia Cyclone". State presidents on the program include Mrs. Ida B. Wise Smith, Iowa; Mrs. Lillian M. Mitchner, Kansas; Mrs. Eva C. Wheeler, California; Mrs. Nelle G. Burger, Missouri, and Mrs. Florence Richard, Ohio.

Miss Anna A. Gordon, world and national president of the W. C. T. U., in her address stressed the influence of women in bringing about the prohibition amendment and the outlook for the 1924 election.

CROP REPORT OF SEPTEMBER 1st

Rains during August caused some improvement to growing crops, but all excepting spring wheat, tobacco and peaches are below last year's estimate and the average for the past ten years, according to the report issued today by G. L. Morgan, agricultural statistician for Pennsylvania, U. S. Bureau of Agricultural Economics.

Corn.

The condition of the crop on September 1 was 85 per cent of a normal, indicating a yield of about 40.7 tons per acre and a production of 62,062,000 bushels as compared with 69,212,000 bushels, last year's final estimate, and 64,470,000 bushels, the average production for the past ten years.

Spring Wheat.

The condition of spring wheat on September 1 or at the time of harvest was 81 per cent of a normal, indicating a yield of about 15.8 bushels per acre and a production of 221,000 bushels as compared with 210,000 bushels last year and 228,000 bushels, the average production for the past five years.

Oats.

The condition of the crop on September 1 or at the time of harvest was estimated at 69 per cent of a normal, indicating an average yield per acre of 26.9 bushels and a production of 31,996,000 bushels as compared with 41,242,000 bushels, last year's final estimate, and 39,393,000 bushels, the average production for the past ten years.

Barley.

The condition of the crop on September 1 or at the time of harvest was 81 per cent of a normal, indicating a yield of 23.5 bushels per acre and a production of 282,000 bushels, as compared with 296,000 bushels last year and 299,000 bushels the average production for the past ten years.

Buckwheat.

The condition of the crop on September 1 was 80 per cent of a normal, indicating an average yield per acre of about 18.4 bushels and a production of 4,434,000 bushels, as compared with 5,203,000 bushels last year and 5,091,000 bushels the average production for the past ten years.

White Potatoes.

The condition of the crop on September 1 was 65 per cent of a normal indicating an average yield of about 79.3 bushels per acre and a production of 20,539,000 bushels, as compared with 28,512,000 bushels last year and 24,398,000 bushels the average production for the past ten years.

Hay.

The condition of all tame hay on September 1 or at time of harvest was 65 per cent of a normal, indicating a yield of .99 tons per acre and a production of 3,018,000 tons as compared with 4,880,000 tons last year and 4,278,000 tons the average production for the past ten years. The average yield of timothy this season is estimated at 1 ton per acre, as compared with 1.5 tons last year and 1.42 tons the average yield for the past ten years. The condition of clover for hay, all cuttings, on September 1 is estimaetd at 67 per cent of a normal as compared with 97 per cent last year and 86 per cent the average condition for the past ten years on September 1. The condition of alfalfa, all cuttings, on September 1 was estimated at 82 per cent of a normal, as compared with 98 per cent last year and 95 per cent the average condition for the past ten years on September 1. The condition of wild hay on September 1 was estimated at 67 per cent of a normal, indicating an average yiel dof about .88 tons per acre and a production of 20,000 tons as compared with 28,000 tons last year and 26,000 tons the average production for the past ten years.

Clover Seed.

It is estimated that the acreage of clover saved for seed this season is 23 per cent less than a year ago. The condition of the crop on September 1 was 65 per cent of a normal, as compared with 85 per cent last year and 81 per cent the average condition for the past ten years on September 1. The condition this year indicates an average yield of about 1.1 bushels per acre.

Fruit.

Apples. The condition of the total or agricultural crop on September 1 was 63 per cent of a normal, indicating a production of 10,521,000 bushels as compared with 11,400,000 bushels, last year's final estimate, and 10,731,000 bushels, the average estimated production for the past three years.

The commercial crop this year is estimated at 1,227,000 barrels, as compared with 1,216,000 barrels last year and 995,000 barrels the average commercial production for the past three years.

Peaches: The total production of peaches this season is estimated at 77 per cent of a normal or 1,907,000 bushels as compared with 1,560,000 bushels, last year's final estimate, and 1,303,000 bushels, the average production for the past three years. The quality of this year's crop was 93 per cent of a normal, as compared with 90 per cent last year and 86 per cent the average quality for the past ten years.

Pears: The condition of the crop on September 1 was 60 per cent of a normal, indicating a production of 526,000 bushels, as compared with 576,000 bushels last year and 547,000 bushels the average production for the past three years.

Grapes: The condtion of the crop on September 1 was 83 per cent of a normal as compared with 95 per cent last year and 77 per cent, the average condition for the past ten years on September 1. The condition this year indicates a production in the commercial area of Erie county of about 18,000 tons. The New York crop this season is estimated at 55,137 tons.

Ward's Wife Sticks To Him In Court, Risking Criticism Of Crowd

White Plains, N. Y., Sept. 13.—Mrs. Walter Ward, who stuck by her husband while the world maligned him with stories of wild escapades, came to court today to sit near him while attorneys went on with the selection of the jury, which is to try him for murder of Clarence Peters, ex-sailor.

Risking the criticism of the crowd, she walks calmly into the chamber and braved the eyes of curious women spectators. She was missing the first day of the trial, it being said she was ill in an Atlantic City hotel.

Learn to Do Things Yourself.

Doing things yourself will make you a better master for others. Your experience will teach you measures, values, and merits. You are a much better boss when you can do things yourself.

Laws Make for Nation's Strength.

Wise laws and just restraints are to a noble nation not chains, but chains of mail—strength and defense, though something of an incumbrance.—Ruskin.

How Shoes Are Numbered.

Shoes were originally numbered according to the length of a grain of barley, in a system of enumeration by thirteens. This scheme is the basis of the present system of numbering.

Boys Don't, Either.

No, Roger, a farmer does not have to study navigation to get the bearings of a fruit tree.—Boston Transcript.

The Boyish Woman.

I think it is the boyish woman, curt and kind and impersonal, who gains the confidence of other women.—"Staking a Larkspur," by Anne Douglas Sedgwick in Century Magazine.

Smoke Instead of Eat.

The women of Russia make the excuse for their general adoption of smoking habit that they puff a cigarette as a relief to hunger.

Delights of Suspense.

It is the ifs and buts that give life its real zest; the painful progress toward certainty rather than the complete and finished certainty itself.

Chivalry.

A Maryland health official declares that the safest place to kiss a girl is on the nape of her neck. Not in this country, for we Americans are much too honorable to steal up on 'em from the back.

Vote for J. G. Mains

Cow hide and calf skin are converted into shoe leather by a process called tanning. This process preserves the natural oil and toughens the hide. The wear in your shoes depends upon it.

Good Tanning means Long Wear

Easier than choosing sides

to choose the best in school shoe values

SCHOOL shoes used to be a problem for mother. Not any more. She has learned to get the utmost in value by demanding E-J's.

Endicott-Johnson, the World's Largest Tanners and Shoemakers, have specialized on children's shoes. In producing them, every bit of their skill and knowledge in tanning, shoemaking and reducing manufacturing costs has been employed. Every means that will keep down prices to you without sacrificing quality has been used. And the result—shoes your boy can wear and wear; prices that mean a big saving on family shoe bills.

The man who has no worries and knows matters at home are all right does the best work. E-J workers have everything to make them happy and contended.

School days are here again. Its high time to think about shoes. Be sure to see the new E-J's for boys and girls.

"Better Shoes for Less Money"

WILL SOON PRESENT ACCEPTABLE PLAN ON PUBLIC LIBRARY

Clearfield people long interested in a public library for the town will be pleased to know that plans for presenting of the project to the people of the town generally are and have been underway for some time. Those interested in the project are about ready to put the matter before the people in a manner which will give all the opportunity of saying just what they think on the subject and deciding what is to be done toward making such an institution possible in Clearfield.

Some time ago there was considerable agitation looking toward the establishing of a free county library and much missionary work done toward showing the people of the county that it was not only a good thing but should be made possible here.

Those favoring the project thought the time was not quite ripe yet to attempt it as a county proposition, but that movement resulted in the appointment of a local committee on the proposition and this committee after canvassing the matter from every angle are about in shape to bring the matter before the people of the town as a whole and this soon be done.

WON MANY 'VARSITY HONORS

Harry Bolles, Yakima, Wash., Brother of National Adjutant, Now Naval Officer.

Captain and stroke of the 'varsity crew at the United States Naval academy, would be more than enough glory for the average "middy" at Annapolis to aspire to. Add to this three years on the 'varsity crew, three years on the 'varsity football team, and membership on the boxing and wrestling squads, and you have quite a record. Add still the Naval academy cup, awarded to the graduate contributing most to the advancement of athletics in the academy during the year, and you have a part of the accomplishments of Harry Bolles, of Yakima, Wash., a brother of Lemuel Bolles, national adjutant of the American Legion, who has just received his commission as a naval officer from Uncle Sam.

Ensign Bolles is a World war veteran, and a member of the American Legion, having enlisted when seventeen years old at the outbreak of the war. He served for two years as a member of the crew on the transport "Great Northern." After the war he obtained his entrance to the Naval academy by passing the hardest sort of competitive examination, where he made good from the start.

FINE KANSAS CITY MEMORIAL

Erection of Splendid Structure to Perpetuate Memory of World War Heroes Now in Progress.

Work of erecting the huge Liberty memorial in Kansas City, Mo., has begun and at least 18 months will be required for completion of construction, according to contractors in charge of the work. The memorial is to take the form of a monumental building and tower to perpetuate the memory of heroes of the World war.

The principal feature of the shrine is the 216-foot stone shaft above the building proper. This towers 350 feet above the Union station plaza and may be seen for miles. At the base of this shaft four sculptured figures representing Courage, Honor, Patriotism and Sacrifice—of heroic proportions, stand as guardians to the "Flame of Inspiration," to burn on the altar atop the towering shaft. These figures are to be designed by Robert I. Aitken, a sculptor of considerable repute, who saw service in the World war.

The edifice itself, to be known as the Memorial and American Legion building is to be a massive structure of stone and steel, surmounted by the great shaft. The total construction cost is over $1,000,000, which does not include mural paintings, sculpture, lighting, landscaping and other work necessary to completion, all of which are estimated to run up at least three-quarters of a million dollars.

Rubber Obtained from Many Plants.

More than 200 species of plants yield latex from which rubber may be obtained.

Far From the Madding Crowd

Charles G. Steinmetz, wizard of electricity, finds a quiet spot on the Mohawk river near Schenectady, N. Y. There with board stretched across the gunwales of his canoe he works out new problems in volts and watts. Although Steinmetz has spent his summers for 25 years at this camp, this is the first picture of him to be taken there.

Not Weaker in Some Respects.

Women are generally classed as the weaker sex, yet the average woman who goes about her ordinary household tasks in a conscientious way; and those who have figured out the problem, performs feats of strength and endurance that would put many a so-called strong man to shame.

Peculiar Combinations.

An English woman recently wrote to a newspaper saying that she was born A. Mann (Alice Mann). She married a Mr. Husband, and so became A. Husband. He died and she married again, this time a Mr. Malden. Becoming a widow for a second time, she concludes that, though born A. Mann, she will die A. Malden.

Joy in Service to Others.

When a man goes upwards he can lead a score of others with him, if he will. There's no joy like that which comes from a useful life—the perpetual effort not only to make the most of ourselves but to help others as we go. Leading others is service to others.—Gibb.

KLAN AGREES TO ABIDE BY LAWS OF OKLAHOMA

Oklahoma City, Okla., Sept. 11.—Bowing to Governor J. C. Walton's edict against masked assemblages, State officials of the Ku Klux Klan, have issued an order here forbidding klansmen in Oklahoma to hold masked parades or meetings.

The decision of Klan officials to abide by the Executive's decree was announced by N. C. Jewett, Grand Dragon of the Oklahoma realm of the Klan.

It came when preparations were under way by Governor Walton to use troops if necessary, to prevent a series of Klan demonstrations scheduled over the States this week, the first of which was advertised for Pristow last night.

Adjutant General Markham had been instructed earlier in the day to hold national guard units in readiness for movement to the counties in which Klan parades were planned.

Dragon Does Good Work.

The dragon fly is a great destroyer of insects—particularly of mosquitoes. This bird wishes these annoying creatures in sight and the bureau of entomology scientists contend that its consumption of this species of insect is beyond calculation.

Daily Thought.

The calm or disturbance of our mind does not depend so much on what we regard as the more important things of life as in a judicious arrangement of the little things of daily occurrence.—La Rochefoucauld.

Gallery Might Do.

A youngster with plenty of snag frolic but little money, was inviting his best girl to go to see the stock company at a local theater. "Well, I'll get the tickets this afternoon," he said. "How's your hearing and eyesight?"

MICKIE SAYS—

Playing Safe.

Harry's folks noticed he was content to play in his own yard and wondered why he didn't tease to go and play with the boys on the vacant lot. When asked about it he said: "Well, I'm a regular scrapper when with my own gang, but there's a boy visiting here and I don't know whether I can lick him or not; so I'm waiting till he's gone home. I like our yard best anyway."

Tame in Captivity.

Two bugs that will try the patience of the photographer are the dragon fly and rove beetle, says Nature Magazine. Both are ferocious, preying creatures, but, like most wild things, if reared properly, will submit to captivity without fatal results. By placing a large dragon fly in the large glass box and supplying plenty of house flies, splendid pictures are obtained of this insect hawk feeding upon its victims.

Glass Blowing Long Practiced.

In the British museum there is a lion's head of glass found at Thebes, bearing an inscription which places its date 2400 B. C. In the tomb of Beni Hassen, dating at least 2000 B. C., the process of glass blowing is represented.

Imperative Need of Rest.

There are moments when all anxiety and stinted toil and desire must cease, in the infinite leisure and repose of nature. Laborers must have their morning undisturbed.—Thoreau.

Tonics For Underweight Kiddies

If your kiddie shows the first strain of the opening of school and appears to lose flesh and look run down, we have a tonic here that will bring him or her back.

Come in and ask us about it.

STEWART'S DRUG STORE CLEARFIELD, PA.

WILL ERECT FINE HUNTING CAMP

The Clearfield Hunting Club, an aggregation of local hunters and sportsmen who recently purchased the Nettie Solladay place on the Penfield side of the mountain, adjoining the Frank Johnson place along the Penfield road and about twelve miles from Clearfield, are arranging to make substantial improvements about the place.

These improvements consist of a new camp 28x40 feet in size with all modern conveniences and equipment. The second floor will contain sleeping quarters for thirty-two men in addition to five private sleeping rooms, bath, etc.

The camp will be lighted by a Delco electric system and an electric pump will supply water from a convenient well.

The camp is located in a fine deer and small game country and is a most desirable spot.

STRIKE SHUTS 310 COAL MINES; DAILY WAGE LOSS IS $750,000

Here are some impressive statistics on the anthracite strike:

Number of larger companies affected, 60.

Number of collieries affected, 310.

Number of miners affected, 158,000.

Number of miners' families affected 20,000.

Number of maintenance men working, 3,000.

Estimated daily loss in wages to men, $750,000.

Estimated daily loss in production, 300,000 tons.

Monthly loss in taxes on coal to the state of Pennsylvania, $600,000.

Estimated number of anthracite using homes affected by the strike, 15,000,000.

THE BRADLEY

A Plan for Bungalow Built for Comfort.

In planning this four-room bungalow the architects had in mind the person who is happiest with everything "all on one floor." He succeeded very well in doing away with stairs and thus eliminated the necessity for a cellar. A combined modern radiator boiler in the kitchen provides hot water heating for the whole house. A coal room is provided in the kitchen entry where there is also space for the refrigerator which can be iced from the outside.

This house has plenty of closets, even the kitchen has one, there are two in the living room back of the fireplace, there is a linen closet and each bedroom is generously provided for.

The kitchen is ideal in its step-saving arrangement. The sink drainboard and space for two laundry tubs come under high windows. There is ample wall space for the range and heater opposite minimizing work near the hot stove. There is room also for a laundry machine and dish washer if desired.

The dining alcove is so close to the kitchen as to be almost a part of it. Besides its cozy open fireplace, a feature of the living room is the arrangement of openings so as to give enough wall space for the placing of furniture. A generous porch along the front is so built that it may be screened or glazed. The two commodious bedrooms and the bath are reached from a small hallway off the living room.

The pleasing roof lines of this snug little house enhance its appearance of both permanence and dignity. The pitch is high enough to allow for two additional bedrooms in the attic. These could be reached by a stairway at the end of the living room.

This home can be made entirely fire-safe by covering the roof with fire-resistive cement-asbestos shingles or concrete roofing tile. Besides the security which such protection gives, maintenance and depreciation costs are reduced to a minimum.

For the shore or mountain cottage nothing could be better than concrete block construction with an attractive coat of portland cement stucco of a texture and color to meet one's personal ideas. This individuality of appearance may be added at practically the same cost as less desirable, inflammable construction, the difference being seldom more than 5 per cent, and in some cases the cost is the same. Removed, as such houses are from fire-fighting service, fire-safe construction is an important consideration.

U. S. IN NO HURRY TO SEND AN AGENT TO MEXICO CITY

Washington, Sept. 12.—President Coolidge is satisfied with the status of relationship with Mexico for the time being ,and will not appoint an Ambassador to the southern republic just now.

This statement was made at the White House for the President today in denial of reports that he is about to announce the appointment of R. B. Creager, of Texas, to the Mexico City Post.

When thou time comes to select a Mexican Ambassador, it was said, Mr. Coolidge will confer with Secretary of States Hughes and will be guided by his recommendation.

The belief prevails that no appointment will be made until after Congress meets in Dciember, in order that it may be acted upon by the Senate before sending the appointee to the Mexican capital.

Mexico City Sept. 11—The revolutionary claims convention, framed at the pre-recognition conference here, was signed at noon yesterday by Foreign Secretary Pani, for the Mexican Government ,and George T. Summerline Charge d'Affaires, for the United States, it was announced today.

The convention provides ,after approval by the United States and Mexican Senates, for the creation of a mixed commission to settle American claims for damages suffered in consequence of the revolution between November 20 1910, and May 20, 1920.

To Remove Dust From Clock.

It is not always necessary to take a clock to pieces to clean it. Soak a piece of cotton wool in paraffin, place this in a tin lid or small saucer and put it in the case of the clock under the works. In a day or two it will have attracted all the dust which has impeded the movement of the clock

Notary Public.

The qualifications for a notary public are just ordinary intelligence and honesty So far as age is concerned, any age after twenty-one will fill the bill.

Wigs Have Long Been Worn.

The custom of wearing wigs is great antiquity If, as seems proved the curious head covering of the figure in a prehistoric ivory carving is a wig the adornment may be traced be 10,000 years. Certainly the Egyptians wore wigs as part of the royal and official costume The Greeks, too, were addicted to the vanity

Of Course She Didn't Ask for It.

Evelyn had been instructed by mother not to ask anyone for a penny. Later her aunt opened her purse to take a nickel to use in the telephone, and Evelyn shyly glanced in Seeing one lone penny, she remarked that she thought pennies were such a nuisance in a big lady's purse.

Tunnel Far Above Sea Level.

One of the most wonderful of railway tunnels is the trans-Andean, in South America which was opened in 1905. This great tunnel, which affords direct rail communication between Argentina and Chile is only five miles in length but it surpasses all others in being 12,000 feet above sea level.

Fishing Catch Not Wanted.

Octopuses numbering more than 5,000 were landed during one week by the fishermen of northern France.

Thought for the Day.

Sometimes we become discouraged because we hear so few favorable comments; let us be thankful we do not hear all that are unfavorable.

Hairs on the Human Head.

The authority says an average head of hair may consist of as many as 1,0,000 hairs of the darker shades, and red hair about 30,000. A count of the hairs on a square inch of scalp of numerous heads gives an average of 1,000 per square inch; on certain other heads the figures are more

BENEFIT BASE BALL GAME

Saturday Afternoon

CLEARFIELD AMERICAN LEGION TEAM

—vs.—

PHILIPSBURG

This game is a post season game staged for the benefit of the two Clearfield players who, without compensation, helped give you good baseball all summer. Cowdrick had his leg broken. Alleman had a finger split and hasn't worked since.

THESE FELLOWS HELPED TO GIVE YOU BASEBALL FOR NOTHING AND GOT INJURED.

SHOW YOUR APPRECIATION BY BUYING A TICKET FOR THIS GAME.

Game Starts 3:30 **Admission 50c**

A Special Purchase Enables Me To Make An Unusual Offer In Fall Sports and Trimmed Hats

For Friday and Saturday

100 Hats Regularly Selling at $5. **$3.50**

100 Hats Regularly Selling at $7.50 **$5.00**

I made a special trip to New York to get these Hats especially for this occasion. Realizing that it would necessitate something unusual to make this Dollar Day a success, and realizing that you expected me to give you something out of the ordinary, I made this trip, and these two hundred Hats which will be on sale Friday and Saturday are the result.

There are a varied number of shapes and every one is a beauty. The materials are simply wonderful when you consider the price.

Here is your chance to get a new Fall Hat at a price that is near the lowest possible ebb at this season of the year.

Come in early for I expect these two hundred to be closed out by noon on Saturday.

YOKOHAMA IN FLAMES

This picture shows the fire which destroyed 3000 homes in Yokohama several years ago, making 25,000homeless. The eye must multiply th is scene many times to achieve a picture of the present havoc wrought by fire, quake and tidal dave in Yokohama and Tokio.

Wisdom of Providence.

There is a sort of economy in providence that one shall excel where another is defective in order to make men more useful to each other, and mix them in society.—Addison.

Optimistic Thought.

If we desire to avoid insult we must be able to repel it.

Looks Like a Pull in Some Cases.

Even the Hall of Fame needs a catalogue explaining to many why those in it are there.—St. Louis Globe-Democrat.

Glycerin From Shark's Liver.

In a shark's liver the content runs from 65 to 70 per cent of finest oil, of which about 10 per cent is glycerin.

WOULD BETTER HEALTH HELP YOU GET THAT SALARY RAISE?

There are lots of people who are neither very sick nor very well, but who seldom really feel at their best. Sleep does not refresh them as it used to and they get up for work feeling drowsy, dull and tired—easily upset with indigestion, nervous and often constipated. Consequently they cannot do their best—they can't put enough strength, energy, ambition and pep into their work to become leaders and increase their earnings.

FACE THESE FACTS! Build your self up! Take a good tonic, as your doctor would advise. Let Dr. Thachers' Liver and Blood Syrup do for you what this strengthening, nourishing vegetable tonic has accomplished for countless numbers of men and women. Increase your appetite, tone and stimulate your digestion, soothe and nourish the overtaxed nerves, wake up the sluggish liver, gently correct constipation and send purer, healthier blood coursing through your veins.

TRY THIS TONIGHT; Take a delicious tablespoonful of this nourishing, strengthening tonic after the next few meals. Feel like doing a bigger day's work with enough strength, energy and "pep" left over to enjoy evenings with the family. Your druggist will promptly refund the cost unless you really notice a quick difference in the way you look, eat, sleep and feel.

Get it in Clearfield at Stewart Drug Co., and at the leading druggists in every town.

ONION GROWERS WILL SELL CO-OPERATIVELY

Large Portion of Indiana Acreage Under Contract.

Sixty per cent of Indiana onion acreage is under contract to sell co-operatively, according to the general organization committee of onion growers formed by the Indiana Farm Bureau federation.

The various county associations and the Indiana Farm Bureau Onion exchange will be immediately completed by holding elections in which the contract signers elect their boards. This duty has been delegated to the central organization committee, under the erecting of an elections committee from all counties, who will canvass the vote and announce the results.

Notices are being sent out to all members that the minimum has been secured, and the contracts go into effect at once. The farm bureau and general organization committee has been instructed to proceed at once in securing commitments for finance, personnel, storage, equipment, subject to the approval of the board elected by the onion growers. In this way no time will be lost and the associations and the exchange will be ready to function by the time the crop is fully matured and ready for harvest in good shipping condition.

The exchange expects to handle at least a third of the Indiana onion crop this year. Ballots for the election of directors will be sent out this week, and the results tabulated and announced the first week in August. It is expected that further business plans will be ready for announcement by that time. Further memberships are accepted at any time until the close of the sales for the season.

The Indiana onion marketing plan was prepared by the department of co-operative marketing of the American Farm Bureau federation.

Thought for the Day.

There is as much difference between wealth and worth as there is between making a living and making a life.

True Wisdom.

Wisdom consists not in seeing what is directly before us, but in disposing those things which may come to pass.—Terrence.

DOCTORS WANTED TO OPERATE

Mrs. Quillen Tells How Lydia E. Pinkham's Vegetable Compound Saved Her from an Operation

Muskegon, Michigan.—"After doctoring for eight or nine years with different physicians without any relief at all, they said at last that medicine would not reach my case and I should have an operation. I had heard of Lydia E. Pinkham's Vegetable Compound and often saw advertisements of different papers where some women had suffered just as I did and got well and strong again by taking the Vegetable Compound. I decided to see what it would do for me and before I had finished the fourth bottle I was much better, the weakness stopped and the severe pains in my sides left me. I am now much stronger and do my own work and work in the factory besides. I am telling the Vegetable Compound and ... about it."—Mrs. NELLIE QUILLEN, ... Muskegon, Mich.

When you read such warning symptoms as ... dragging-down pains and weakness ... indicate some female trouble ... a prompt, safe and faithful ... Lydia E. Pinkham's Vegetable Compound ... will ... to help.

...Foster, promoter of the ...n" idea in America, is ... been the dominating ...s preceding the massa... ...g among his aides Jack ...go editor of the Voice ...k Doscnburg, Carney's ...ger, Arne Swabeck, of the central executive committee, Communist Party of America, Oscar Larson of the Young Communist League, Gus Fraenckel, extremist worker among rail employes, Charles Krumbein, district Communist official, and Nels Kjar, convicted in Chicago courts for conspiring against the government during the war.

Lewis' Wire "Twisted."

The article continues:

"The plan was to have simultaneous uprisings in southern Illinois and, if possible in the vicinity of Bel... Ohio, which also was a hotbed of Communist agitation, and in the Uniontown, Pa., region.

"A telegram to local union officials at Herrin by John L. Lewis, president of the United Mine Workers, placing workers of the strip mines in the category of strike breakers was shrewdly twisted and distorted, according to the boast of the Communist leaders at Chicago, into an invitation to attack the strip mines and the workmen employed there.

"Officials of the United Mine Workers had no intimation that an attack was contemplated, or that a conspiracy within the Communist Party of America existed at the time to precipitate a tragedy such as took place the day after the telegram was received from President Lewis."

Many Vicious of Wild Beasts.

China than is to her long history, has been able to rid herself of the most dangerous animals but in Korea a local species of tiger perhaps the largest and fiercest in the whole family, annually kills 2000 peasants Siberia, north is affected by the ravages of wolves and bears whose victims run into thousands every year.

Hard to Place Blame

Jud Tunkins says after throwing all his lightning rods away he learns that there's a valuable protection He don't know who's responsible for the mix... the scientists or the ad writers.

Elephant More Intelligent.

Some idea of an elephant's ...lities may be reached by comparing him with the dog with whose intelligence we are familiar. Making allowance for the dogs opportunities under many training science has come to doubt whether the most exceptionally intelligent dog possesses comprehensive faculties equal to those of the adult wild elephant fresh from the jungle.

Copied Monarch in Wearing Wigs

It was in the Seventeenth century that the wig found its maximum development in the period The Abbe Le Ridere it appears started it all by attending the court of Louis XIII in a wig The king who was prematurely bald thought it an excellent idea and in adopting it for himself, made it obligatory among genteel courtiers.

Woman Cost Who Pays.

South American coffee and cotton planters say the women and children work better than men though their labor is rewarded with a lower wage. Women barter in fruit vegetables and dress goods as "dust traders" on the steamships which ply between West Indian islands In Grenada they act as blacksmiths shepherds carpenters and carriers.

Saved by Airplane

A woman scientist dying from tetanus, produced by an accidental gunshot wound while collecting snakes and insects in the woods of Panama, was recently rescued by an airplane flying over the camp and dropping the necessary serum.

Can You Do It?

Fame is fleeting just how fleeting is shown by the fact that for the life of us we can't remember what half the men did to get cigars named after them.

Uncomfortable Shaving Process.

Razors are not allowed in the Wiltshire county asylum at Devizes, England, and those who desire to be shaved have to use pumice stone, according to report of the commissioner under the board of control Safety razors have been recommended.

Bacillus in Bread.

The Welch bacillus, a tiny plant found in infected wounds, is also thought to be the active agent of a "starter" used in the manufacture of salt rising bread.—Indianapolis News.

Venus de Milo.

The famous statue of Venus known as the Venus of Melos was found on that island by a farmer in 1820 and removed to the Louvre, Paris. It was probably done in the Fourth century before Christ.

New Ms. of St. John's Gospel

Among the recent important discoveries of the archeologists and to many the most important of all is an ancient papyrus manuscript with one of the earliest examples of the Gospel of St John This was beautifully written in Coptic about 400 A. D., the date of the earliest copies of the Greek text that are known, it will have a deciding voice as to what was accepted as the authority in Egypt. It is reported that it varies all through from the known manuscripts in many details.

Ten Best Authors

If there are ten best authors in America, you may count on practically all of them to appear in coming issues of

THE LADIES' HOME JOURNAL

Booth Tarkington should head any list, and his new novel, *The Midlanders*, begins in an early fall issue. Then comes a great "woman in business" romance, *"His Worldly Goods,"* by Sophie Kerr.

Zane Grey will follow almost immediately with *The Thundering Herd*, a stirring story of the last days of the buffalo and the Indian fighters.

The other seven on this particular list of ten are Joseph C. Lincoln, Clarence Buddington Kelland, Herbert Quick, Corra Harris, George Weston, Hugh MacNair Kahler and Eleanor Hallowell Abbott.

But fiction is only *one* department of The Journal. You can bank on its trustworthy fashions, cooking, canning, needlework, dressmaking, homekeeping and countless other features—good things for all the family which I haven't space to mention.

May I show you a recent copy? You'll be surprised at the wealth of good things $1.50 will buy.

WAR PIVOT

The old fort at Corfu, bombarded by the Italians and later occupied by them. American Near East Relief workers were among those under fire and say they will appeal to the State Department of the United States against the action of the Italians.

MELLON TO URGE REDUCTION IN HIGH INCOME TAX

Washington, Sept. 11.—Secretary of the Treasury Mellon today directed tax experts to compile data to enable him to go before Congress with a recommendation for a reduction in the higher income surtaxes.

He will urge that they be cut from a maximum of 50 per cent to 25 per cent. It is hnderstood that President Coolidge will support the recommendation and make it an Administration measure.

On good authority it is learned that Secretary Mellon has decided that a reduction of the so-called confiscatory tax on higher incomes will not work a hardship on the less wealth or poor classes. Instead of bringing money into the Treasury, he finds the large incomes are being converted into tax-exempt securities at the expense of other taxpayers.

This was demonstrated when the late William Rockefeller died. He owned $40,000,000 worth of tax-exempt securities. Other rich men took their money out of business and invested it in tax-exempt-securities to avail the excessive and near-confiscatory sur-taxes and Secretary Mellon seeks to get this capital back into business and industry by lowering of the taxes on big incomes and which he believes would greatly increase the tax yield.

Progress "want" ads bring results!

"Spring Cleaning" Old Custom.

What we call "spring cleaning" is said to go back to the Passover. From that time there has been a custom whereby everything in a house should be cleaned in the early part of the year. The custom was common among the Jews, especially those who settled in Holland, and gradually the whole Dutch nation became imbued with this idea. From the Netherlands the custom spread to England.

The Ananias Club.

"I have the prettiest stenographer in town," said the tired business man. "But she always leaves her vanity case in the cloak room and I have never seen her stop in the middle of writing a letter to powder her nose."—Cincinnati Enquirer.

Prized Prints of Old Canada.

The public library of Toronto now possesses the largest and most valuable collection of prints of early life in Canada in existence. The collection includes nearly four thousand engravings, prints and paintings.

Highly Prized Decoration.

The British Victoria cross, given for conspicuous bravery, was instituted in 1856 on the close of the Crimean war, and was given to citizens who had borne arms against the Indian mutineers. In 1911 the decoration was extended to the Indian army. A bar may be awarded for an additional act of bravery. With the decoration is a pension for noncommissioned officers and men of £10 ($50) a year; with an addition of £5 ($25) for each bar.

HOW TO FORGET TROUBLES

TROUBLES knock up your system like Jack Dempsey knocks down his opponent.

Troubles deal blows both in the head and stomach—and they hurt the stomach more than they do the head!

Troubles give the stomach indigestion, slow up the liver—and then follow constipation and biliousness.

The way to get rid of troubles is to invigorate digestion, stimulate liver and bowels and tone up the entire system. The best way to do this—has been for the past 80 years—is to take Beecham's Pills.

Then you will feel so good that "troubles" become merely problems, to be solved readily by the clear, keen brain of health.

At All Druggists—25c and 50c

Barratry and Mutiny.

Barratry is a sea crime which is committed when a master or a crew do any unlawful acts tending to their advantage and to the detriment of the owner of a vessel. Mutiny is a concerted revolt against the rules of discipline or the lawful commands of a superior officer.

COOLIDGE BOOMED FOR PRESIDENT AT CHICAGO-ST. LOUIS

Chicago, Sept. 11.—Coolidge-for-President clubs have been formed in Chicago and St. Louis with the avowed purpose of obtaining support for the President at the next Republican National Convention, although President Coolidge, in a letter to the Chicago Club, said he preferred the club support his Administration and contribute to its success.

Formation of the St. Louis club with Hugh Wagner, former member of the Missouri Legislature and chairman of the greater St. Louis Conference, as President; Edward H. Bauman former State Senator, vice-president and Charles F. Meyer, secretary, was announced yesterday. The Chicago club was incorporated last week.

"I have given no thought to the matter to which you refer," the President's letter said, "and I am merely doing what I can to take up the burdens of my office. I very much prefer to discourage thought and activity in any other direction.

"The task before me is to carry to successful conclusion the policies inaugurated by President Harding. And I am sure you will understand that if I ask your help to this end, rather than in the way you have suggested it shows no lack of appreciation of your kindness."

WINFIELD S. HAND

Candidate

—for—

County Commissioner

Mr. Hand is a man who has been engaged in the service of the public for many years, and has always been regarded as one who could be trusted to the limit in looking after the interests of the taxpayers. He is a friend of the laboring man being one of them himself, and will give everyone a square deal if elected to this important office.

Clothes that 'radiate cleanliness'.

YOU, TOO CAN HAVE THEM

"They fairly radiate cleanliness," a patron told us when we returned her bundle of newly laundered clothes. And could you have seen them, you would have said so, too.

For everything was spotless from dainty washing. Everything was fresh and lovely from careful ironing just as it should be. And finally, everything was folded, ready to wear or put away.

Enjoy having your clothes laundered the fined way. Just phone—we'll send our representative for this week's bundle.

DEALER PLEASED BY PROSPECT OF INCREASED DODGE BROS. PRODUCTION

"Nothing was more gratifying to Dodge Brothers dealers than the recent announcement of Dodge Brothers that they were erecting an immense new assembly building and other new units which would enable them materially to increase their production," said Wm. H. Soiple, local dealer for Dodge Brothers, in viewing the sales prospects for 1923-4.

"Although the factory has been enlarging its facilities year after year, it has never been able to meet the demand," he added. "This was true even for the fiscal year ending in July, 1923, during which period approximately 200,000 Dodge Brothers motor cars were built and sold. If Dodge Brothers dealers were able to make such a phenomenal record last year, it is easy to see that they will do even better during the next fiscal year as the present line of cars represents a much greater value than ever before. The cars look better and ride better, and yet they retain all the former advantages of economy and dependability that accounted for the enormous demand of the past.

There's All the Difference.

Reading the silly magazines as one does on vacation, we note that the best just now is articles by husbands on "How My Wife Has Hindered My Career." You don't see women blurting about their incumbrances this way. Why? They are the practical sex. When a woman finds her husband a hindrance she doesn't talk. She acts.—Chicago News.

These Hard to Find.

Hubbard says are genus of orchid, of which about eighteen species are natives of the eastern states, says Nature Magazine. They are partial to low, moist grounds so that the seeker must be willing to risk a wet-footed search of our most forbidding bogs and swamps. The blossoms are so exquisitely dainty that the finding of them is well worth the trouble and discomfort.

Source of Alaskan Revenues.

Ninety per cent of Alaskan revenues are derived from fisheries, mining and forests.

Improved Aerial Photography.

Formerly only an area of three quarters of a square mile could be covered with one picture taken by aerial photography, but a new method has been worked out by which it is claimed that an area as great as fifteen square miles can be shown on each picture.

World's Period of Disgrace.

From the beginning of time there have been soothsayers, crystal gazers and necromancers—and we have them yet. It was not till about the time of Columbus that the world lost its head over witchcraft and for two or three hundred years managed to write some of its most [illegible] of history.

Limitations.

The question as to what the science of mathematics shall be said to be has been discussed by philosophers and mathematicians for some 2,500 years, but as yet a generally approved definition has not been formulated. A common definition, that once held inadequate, is that mathematics is the science of [illegible] and how much, or the science of measurement.

Where the Trouble Lies.

It would be much easier to resist temptation if we were never tempted to do any but unpleasant things.—Summerville Journal.

"Overt" Act.

Overt, in law, means evident or undisguised, and an overt act, according ly, is one which may be clearly proved and was manifestly intended.

CLEARFIELD PROGRESS

THE WEATHER
Fair tonight and Friday and cooler Friday.

VOLUME XVII — THE CLEARFIELD PROGRESS, CLEARFIELD, PA., THURSDAY EVENING, SEPTEMBER 13, 1923. — NUMBER 216

Trouble Brews In Southern Europe Which May Involve The Whole Of Europe In War Again

Large Portion of Spanish Army Attempts to Set Up Separate Government at Barcelona.

FRANCE DISTURBED

Paris Sept. 13—Closely censored advices from Madrid today indicated a large section of the standing army has rebelled demanding resignation of the Governmnt.

Th rebellion apparently was caused by two conditions:

1. Dilatory policy of the Government toward the Catalonian Separatists who, in a meeting in Barcelona yesterday, adopted resolutions insulting the King and Queen and demanding immediate separation of Catalonia into an independent republic.

2. The military reverses suffered by Spanish forces in Morocco, fighting against the Moorish rebels, lead by Abdul El K rim. The army blames the Government for these reverses because of its failure to provide sufficient troops, munitions and equipment, despite the repeated pleas of the military commanders.

The movement started shortly after midnight in Barcelona, the seat of the Catalonian movement when the Provincial Captain, General Primo D'Riviera, declared a state of war, demanding resignation of the cabinet and seizing communication lines.

Later advices indicated the movement had spread throughout the country and the majority of the important military garrisons going over to the revolutionists, who are reported to have captured Foreign Minister Alba.

All dispatches indicated the position of the King was not in danger.

The Council of Ministers, in a long session ending early today, refused to resign and retaliated against the army by declaring martial law in Barcelona.

The King was expected to arrive in Madrid today.

Madrid, Spain, Sept. 13.—The Council of Ministers today delcared a state of war in Barcelona as a result of the Catalonian Separatists movement.

All military garrisons in Madrid were ordered to be ready for immediate duty and all troops and men on leave were recalled. An immediate mob lization of police and civil guard was ordered.

Paris, Sept. 13.—Official advices at 3:00 p. m. confirmed reports of a military coup in Spain.

Bulgarians Accive

Athens, Sept. 13.—The Jugoslav Government has ordered the closing of the Serb-Bulgarian frontiers, following extensive invasion of Jugoslav territory by large bands of armed Bulgarians, a telegram from Belgrade stated today.

Italy Obdurate

Geneva, Sept. 13.—The Italian Government today notified Switzerland it cannot accept arbitration of the Fiume dispute between Italy and Jugoslavia, by the Swiss President, owing to difficulties which might arise later between Italy and Switzerland.

War Clouds Loom

London, Sept. 13.—The possibility of an Italian-Jugoslav war within seventy-two hours was agitating the Chancellories of Europe today while they waited anxiously for the terms of the Belgrade reply to the ultimatum of Premier Musselini of Italy, demanding acceptance of the Italian thesis for settlement of the Fiume controversy by Saturday.

It was understood that Jugoslavia's reply already has reached Rome and is being studied by the Italian Foreign Office. The decision of war will depend on the Italian view of the communication.

Great Britain, for the moment, is not directly concerned in the dispute and there is little likelihood that she will be personally involved, although her statesmen realized the danger of a new general European conflagration.

France is in the most delicate posi-

(Continued On Page Two.)

HURRY CALL FOR PHYSICIAN LEADS TO THE BELIEF MAYOR HYLAN'S PHYSICAL CONDITION IS EXTREMELY DANGEROUS

Saratoga Springs, N. Y., Sept. 13.—Mayor John F. Hylan, of New York, was believed gravely ill and his condition very unsatisfactory today as a result of a hurry call sent to his physician, Dr. Frank Monaghan. Dr. Monaghan hurried to the Hylan residence early this morning at the regular conference hour and at the conclusion of the conference hour announced that he would remain there for several hours. The official bulletin stated that the mayor spent a comfortable night and that while there was trouble in the left lung it had not spread during the last twelve hours. His pulse was given as 99, his respiration 30, and temperature 100. When it was recalled that his temperature last night was only 101 it was indicated that the usual nightly drop had not taken place. His respiration is higher than last night. In general the situation parallels that of last Friday night when his condition was critical.

NINE VESSELS OF U. S. INSTEAD OF SEVEN WRECKED SATURDAY

San Diego, Cal., Sept. 13.—Nine destroyers, instead of seven, as first reported, ran on the rocks at Point Arguello Saturday night, it was learned today.

The Somers and Farragut limped into ports here during the night, badly cripiped, pumps working to keep water out of their holds, with tales of their thrilling escape from the fate that overtook their sister ships of the destroyer flotilla.

The two destroyers that escaped damage from the perils of the rocks were following in single file the seven that piled up.

"DEAR" BUSINESS

Emporia, Kan., Sept. 12.—"Petting parties" in Emporia come high. A. H. Lakin and Edward Drum ,sons of wealthy Emporia families, were fined $500 each and Marshall Warren was fined $1,000 upon pleading guilty to participation in spooning parties along the highways.

Think Small Tidal Wave Wiped Out A Town On Lower California Coast

Mexicali, Lower California, Sept. 13.—Terrific storms and a small tidal wave that drove in from the Pacific and caused a great damage in lower California over last week end may have completely wiped out the entire fishing village of Jose de Cabo. The town's 500 inhabitants are believed to have escaped.

Lower California's State Government officials were without official word of the reported disaster. An unofficial report picked up by the wireless station here said a severe storm swept the third lower Californian coast Saturday and that the village was seriously damaged. Relief, it was said, was being rushed from Maza tan.

Miss Adale Smeal, who left Clearfield last Sept. and completed a course at the Ohio Valley Business College, is visiting her aunts, Mrs. Bessie Burge and Mrs. R. R. Stewart. Miss Smeal now has a position with The Homer Laughlin China Co., Newell, W. Va.

NUMISMATIST IS MOST INTERESTING SPEAKER; TELLS ROTARIANS OF NEW IDEAS IN STABILIZING MONEY VALUE

Believes Money of the Future Will Represent a Unit of Purchasing Power That Will Cover the Whole World.

MASTERLY PRESENTATION

The Clearfield Rotary Club had as the club guest at last night's meeting, Mr. Farran Zerbe, of Tyrone, owner of the world's greatest collection of money which he has on exhibition at the Clearfield Trust Company. Mr. Zerbe is one of the leading numismatists in the United States and is an ex-president of the American Numismatists' Congress and a former member of the U. S. Board of Assayers.

He got his early education handling money as a newsboy at the Tyrone station forty years ago. He had a hard time getting hold of the kind he could not spend but finally some fellow unloaded an odd coin on the boy and that act uncovered a bent in the lad which he decided to follow until today he owns the greatest and most interesting collection of money ever gotten together anywhere by any person. His collection numbers 30,000 pieces or specimens and embraces almost every kind of money ever used by man, civilized or otherwise. The collection represents a monetary value, if every coin or bill could be spent at the value it represented when in use, of fifty millions of dollars.

Mr. Zerbe was introduced to the club by his boyhood chum, F. Gurney Smith, and gave the Rotarians a most interesting talk on money, its uses, value and the necessity for its stabilization the world over. The speaker, who could qualify as a financial expert among the very best, paid a splendid tribute to the U. S. Federal Reserve Act, which he styled the culmination of the thought of America's leading economists and financial experts, and was the means of saving this country from financial chaos in 1914 when the New York Stock Exchange closed during the early days of the world war in Europe.

Mr. Zerbe gave it as his opinion that we had only made a start in the right direction and that eventually money would have to be stabilized by the guaranteeing of its purchasing power and when this was done contracts or obligations would be made, not to pay a certain fixed amount in a year or term of years, but the terms would be such that the debtor would be required to make repayment of debt or loan in an amount equivalent in goods or merchandise to what could have been purchased by the sum in question at the time contract or loan was made. For instance, if when the contract was made the sum involved would purchase ten suits of clothes or three tons of sugar, at the end of the contract period the contractor would only be required to supply as many suits of clothes or tons of sugar as the amount in question then would buy, be the quantity greater or smaller than when the contract was entered into.

Mr. Zerbe proved to be a most interesting talker and his remarks as to stabilization of money made a lasting impression upon his hearers.

President Stewart reported on the N. Y. C. trunk line meeting at Williamsport, at which the P. R. R. Co "gummed the cards," and announced an adjourned meeting on this project which would be held in Clearfield Sept. 25th.

Chairman Pearce of the Civic Affairs Committee reported progress on the matter of street signs for the borough, while Chairman Boyce of the Boys' Work Committee did likewise.

Guests present were George Latimer Reed, of Annapolis, Md.; Jack Broome, of Clearfield; J. H. Duke, of Jersey Shore, and F. L. Hill, of Johnstown.

MORE INFORMATION ABOUT THE JUDGE'S PENSION

Clearfield, Pa., Sept. 13, 1923.

Clearfield Progress.

Attentio G. A. Stewart, Esq.

My dear Stewart:—

I seldom complain about published matter and certainly not with reference to the Progress, but in the issue of yesterday in answering an inquiry of Mr. G. O. Neff the pension matter is so discussed as to be entirely misleading.

Apart from the fact that I have always been opposed to this pension law and most Judges regard it as a nuisance, the serious objection is that it fails to print the proviso to the Act, which reads as follows:

"Provided, that no compensation shall be paid under this Act for any period during which such Judge is engaged in any remunerative business or employment."

In view of the entirely unsolicited addition put to the reply to Mr. Neff, it might further be fairly added that this pension is paid by the State, the proportionate share of Clearfield County being less than 60.00 a year and that there are now 53 Judges in Pennsylvania who have served more than one term and if they live will be eligible to pension.

Very truly yours,

SINGLETON BELL.

SKIDDING AUTO IS FATAL TO TWO AND PROBABLY TO MORE

Donora, Sept. 3.—Two men were killed and three probably fatally hurt when a speeding automobile skidded on a sharp curve and crashed into an iron pole on the Donora road at Black Diamond early today.

The dead are Clyde Saylor, 33 and John Greco, 26, both of Donora. Joseph Francis Catoni, 30, also of Donora is in the Monongahela Hospita with a fractured skull and internal injuries.

The driver of the car, Myron Vol who was only slightly hurt was arrested and lodged in the Donora Police Station pending an inquest.

BANDIT HOLDS UP MESSENGER WITH PRECIOUS STONES

Philadelphia, Pa., Sept. 13.—Two daring bandits held up and robbed Gus Prodell, 16, a messenger of a box containing diamonds and platinum valued at $50,000 today according to the police.

The messenger was taking the valuables he had collected from various jewelers to P. S. Tretand a smelter and diamond setter at 933 Arch St.

PUBLIC WILL PAY MILLION AND HALF TO SEE BIG FIGHT

New York, Sept. 13.—More than a million and a half dollars worth of customers will see Jack Dempsey and Louis Angelo Firpo do their demonstration of fight against might at the Polo Grounds tomorrow night. The latest estimates from the office of Tex Rickard set the prospective receipts at about $1,500,000 and the attendance at 90,000.

So tremendous is the interest in the contest between the "fighty" Dempsey and the "mighty" -Firpo that the attendance will be limited only by the restricted accommodations of the ball park and unofficial receipts will be bounded only by what the fans will stand for in the way of extortion of the ticket scalpers.

Estimates today, after a conference at the ticket brokers' office, set the sum which New York and outside points may pay for the fight at close to a million dollars.

Tickets from the $5.50 variety up to $27.50 that have fallen into the hands of the speculators are bringing from $8.80 up to $150. The choice of seats in the first eight rows are bringing in five times their values.

VISITING OLD HOME

Mr. and Mrs E. E. Orcutt, of Clearfield and his parents Mr. and Mrs. Franklin Orcutt ,of Grampian, left yesterday on a two week's motor trip to the State of Maine. The senior Orcutt is a native of Maine and he is going back to visit his old home section.

WEATHER MAN PUTS SEAL OF APPROVAL ON BIG DOLLAR DAY

Even the weatherman is entering into the spirit of Dollar Day by promising a fair cool day tomorrow. This is a combination that is hard to beat. Here, the Clearfield merchants are using their utmost efforts to give you an occasion that bids fair to eclipse anything that the city has ever seen and along comes this kind of co-operation from Friend Weatherman. Could anything work out better?

Truly, the offerings which were made in last evening's Progress and the added offerings that are embodied in the new advertisements in tonight's Progress are greater and better than anything that has ever been offered you since the Dollar Days were instituted thru the efforts of the Progress some seven years ago. Merchandise that is of the highest quality will be offered to you at prices that are so much lower than ordinary, that it will be worth while to be right here on the ground as soon as the stores open in the morning.

The list of Dollar Day participants is now complete and you should read all the advertisements through tonight. There may have been one put in today that holds just the thing that you may have been looking for some merchant to make because you wanted that particular thing.

With roads leading into the city in the finest kind of shape and with the weatherman's promise of a fair and cool shopping day, this city will probably be enveloped by an army of buyers such as has never been see before.

Shoppers should look over the list below very carefully so they will get into the stores that have entered into the Dollar Day events.

WE'LL GET THE FIGHT

The Progress has made arrangements to get the Dempsey-Firpo fight Friday night blow by blow. Those interested in the fight game and the result of this championship contest are invited to "park" themselves in front of this office about 9 o'clock Friday evening, and we'll tell it to you. We have a megaphone.

More details as to time, etc., tomorrow.

PREDICT FROST IS TO HIT US TONIGHT TO START SEASON

Washington D. C. Sept. 13.—The first light frost that heralds winter's coming was forecasted for tonight by the Weather Bureau for south eastern sections.

Cooler weather throughout the south and south east will prevail tonight and Friday and a light frost probably in north east Ohio New York and New England. The cooler weather will extend as far south as Florida.

NOTICE

Saturday's Progress will be printed early Saturday morning and be at your door when you arise.

Church notices, ad copy and news items for Saturday's issue must be left at our office tomorrow, Friday, before 8 o'clock.

Pennsylvania Births Exceed Deaths At The Ratio Of Two To Five

Harrisburg, Sept. 13.—Approximately five births are reported in Pennsylvania to every three deaths, the State Department of Health announced today.

Figures of the Bureau of Vital Statistics show 113,191 births for the first six months of 1923, and 68,385 deaths.

Of the diseases causing deaths 11,108 are pneumonia, 4,147 influenza, 4,154 cancer, 5,587 bright's disease and 4,358 tuberculosis.

There were 493 suicides and 3,665 accidents causing death.

Miss Freda Colgrove and James Johnson, of Tyrone motored over to spend the evening with the former's parents.

HIGHWAY PARKING ENDANGERS EVERY ONE WHO TRAVELS

Police Patrol for State Roads Will Be On the Job During the Early Part of October.

TO ENFORCE LAW

Harrisburg, Sept. 13—The recent order of Highway Commissioner Pratt D. Wright prohibiting parking on improved roads, and the order of the state fire marshal's office forbidding the erection of gasoline pumps on state highway, or within eight feet of an improved road section anywhere, will have the effect of lessening accidents, in the opinion of officials who are making a study of Pennsylvania traffic conditions.

"What the authorities should do," said a traffic expert, "is to encourage the installation of roadside telephones on every highway in Pennsylvania, because no matter how strict the regulations may be made there are always present on the road, those drivers who disregard all re-

(Continued On Page Three.)

DEMPSEY IN SIX ROUNDS, FARRELL PICTURES

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Sept. 13. (United Press.)—When the gong rang for the first round of the Willard-Dempsey heavyweight championship fight in Toledo, July 4, 1919, Dempsey walked slowly from his corner and circled around the huge Willard. He feinted him five times with his left hand, until Willard stuck out his long left arm. Dempsey then crashed over a right, ducked under the heart, hooked a left to the jaw, and Willard went down.

Willard was tricked into a trap that he had never expected. He thought Dempsey would rush from his corner and charge into him like a wildcat, and when he didn't Willard was completely bewildered.

With Dempsey, that attack was a carefully preconceived plan. He did not do it because Willard was a bigger man. He changed his mind, though, because he knew that Willard was not in shape, that the sultriness of the day and the excitement of the moment had his heart almost in his throat, his side, and he shot his first punch at that very evident weak spot.

Luis Firpo would like to know how Dempsey will come out in the second tomorrow night when they meet at the Polo Grounds. He would like to know what kind of an attack Dempsey will carry against him, whether he will clinch at first and how he will work around to it. Thousands of fans would like to know the same thing.

Firpo is almost in perfect condition. He is a better man now than Jess Willard ever was. The medical examiner of the boxing commission, who looked him over expressed the opinion that the South American has a better heart than Dempsey.

Perhaps Dempsey will shoot his right hand at the heart and hook the left to the jaw. Perhaps he won't. Only Dempsey knows what he will do, and perhaps Dempsey will not be sure until the breaks of the first round decide his course for him.

Dempsey will land the first punch and perhaps the entire outcome of the fight depends on where that first punch lands and how much there is behind him.

If the champion gets the openings and has his old kick behind the punches, he may finish the fight in five or six socks.

Firpo, fighting his usual style, may require five or six dozen punches. He is not a snappy hitter, there is no one-punch knockout in his fists, and he relies upon the effects of a flock of punches to get what Dempsey gets out of just a few.

Dempsey ought to beat Firpo to every punch, but he cannot avoid being hit, and if the South American lands several of his wild swings to the body, Dempsey will lose a lot of the steam in his blows.

* * * * * * * *

Firpo is a very slow starter. It took him eight rounds to get going against Bill Brennan and he looked bad for five rounds of the fight with Jess Willard. In marked contrast, Dempsey is a dynamic starter, and he is able to maintain a terrific speed.

Before his fight with Tom Gibbons, some experts, going back to the Toledo fight when Dempsey faded in the second and third rounds against Willard, expressed the opinion that the first hard hitter who could stall the rounds with Dempsey would beat him. But Dempsey went fifteen rounds against Gibbons as fast as any lightweight in the business.

Big and strong as he is, hard hitting as he is with his right hand, Firpo is not going to be a sucker for Dempsey. It is permissible to being in a qualification that he will not be easy if he owns a real game heart, and nothing has been shown in his fights that would justify a belief to the contrary.

Firpo may go to the floor several times, but it is going to take a hard punch and a lot of steam to keep him there, and if he comes up many times, as many times as Willard did in Toledo, Dempsey will become a very tired young man.

Regardless of what experienced skill and boxing he is said to lack, Firpo is a natural fighter with a peculiar and, so far, a very effective style. He has done everything that was asked of him and has done it in convincing style.

It is a big assignment for him to go against the world's champion and the greatest fighter of the day without more experience but, as has been pointed out, he is about as good now as he ever will be.

* * * * * * * *

Firpo has a good chance to beat Dempsey. He has the best chance of any of the fighters seeking the championship. Willard quit cold when he fought Dempsey in Toledo, and his own density caused him to miss a chance to retain the championship when Dempsey was not in the ring to answer the gong for the second round.

Firpo is just as big as Willard, just as good as Willard and no doubt he has a better heart. He, at least, will fight back and he fights his best when he is hurt and when the going is bad against him.

On what they have shown in their fights up to the present time, Dempsey looks like he ought to win in six rounds.

But Firpo can's be figured on what has happened before. It's almost sure that he will give Dempsey the hardest fight the champion has ever had, and he has a chance to win the title.

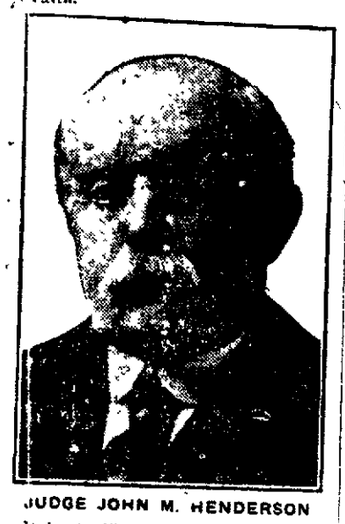
STRONG SUPPORT FOR HENDERSON

Lawyers Throughout State Favor His Retention.

HAS MADE CAPABLE JUDGE

Not a Blemish on Record of Judge Who Has Occupied Place on Superior Court Bench For Over Twenty Years.

Judge John M. Henderson, a member of the Superior Court bench for over 20 years, is a candidate for re-nomination at the primary election on Tuesday, September 18. Lawyers of Pennsylvania have been organizing committees throughout the state in his interest, and it is now assured that his candidacy to succeed himself will have behind it virtually 95 per cent of the members of the bar of this commonwealth.



JUDGE JOHN M. HENDERSON

It is significant that Judge Henderson has the enthusiastic endorsement of attorneys. A practicing lawyer is peculiarly in a position to appraise a judge. To the active trial lawyer it is manifest that a capable member of the bench, such Judge Henderson is, acclimated to the atmosphere, business and methods of a tribunal, as well as thoroughly experienced and honest in his decisions, should be retained in so responsible a place. For it is an unwritten practice in this country, the wisdom of which has been amply demonstrated, to re-elect efficient sitting judges.

What is, perhaps the most striking evidence of Judge Henderson's ability appeared in a newspaper which devoted the best part of three columns to eulogizing Judge Henderson's opponent at the present primary election. In discussing the situation this newspaper printed in the home town of Judge Henderson's opponent, said: "Judge Henderson, who holds the place, if he is a candidate for re-election, will be a hard man to defeat. He has made a good judge."

Judge Henderson is a native of Pennsylvania. He was born a son of a Methodist minister. Before he became of age he enlisted in the War of the Rebellion, fought at Gettysburg, and at the time of Lincoln's assassination was on the Provost Marshal's staff at Washington. At the close of the war, he returned to his home in Meadville, Crawford county and taught Latin in Allegheny College, Meadville. Later he was made head of the Latin department of that college. Upon being admitted to the Bar he soon rose to a high place among the lawyers of his county and the entire western part of Pennsylvania. He was appointed to the Superior Court in 1903, elected that year for ten years and re-elected in 1918.

Judge Henderson's work on the superior bench has won for him the commendation of every lawyer who has come in contact with that court. His record is dignified and honorable, he combining ability with integrity, hard work, fairness and a pronounced judicial temperament. No citizen need hesitate in going among his friends in an effort to create sentiment in favor of the re-election of Judge Henderson. His retention will be a step toward the maintaining of the highest possible standard of the courts of the commonwealth of Pennsylvania. A man or woman who casts his vote for a candidate qualified as Judge Henderson is, can rest serene in the consciousness of having furthered the election of a capable judge. The entire court as well as the Supreme Court, would obviously benefit from the realization that the voters were swift to appreciate a judge's true worth.

Leaders of the Philadelphia, Pittsburgh, Scranton, Harrisburg, Reading, Erie, Wilkes-Barre, Pottsville and other large centers have unanimously endorsed the candidacy of Judge Henderson.

A Philadelphia committee, absolutely non-partisan in its constituency, including in its membership Republicans, Democrats and Progressives, has been formed, the purpose of which is co-operating with political leaders throughout the state to the end that the largest possible vote may be polled for Judge Henderson next Tuesday.

The committee in Philadelphia in its campaign is pointing to the high attainments in the legal profession of Judge Henderson, and is impressing upon the voters that he is eminently fitted in every way to perform precisely the onerous duties of the distinguished office of judge of the Superior Court.

The present primary election is so complicated because of political contests for local offices all over Pennsylvania that there is a possibility of the Superior Court judgeship being lost sight of by many voters. This is unfortunate because if there is any office for which popular interest should be stimulated, it is that of judicial offices and, particularly, one as important as the Superior Court. The purpose of the committees formed for Judge Henderson is to stress the importance of his retention on the Bench, believing that by effecting his re-nomination they are conferring a distinct public benefit: that a judge of proven merit is thoroughly deserving of primary consideration in preference to an outsider.

There is no question of Judge Henderson's re-nomination and re-election. Nevertheless, lawyers and laymen should do everything within their power to promote his candidacy in order that his majority may be of an overwhelming character.

Lines to Be Remembered.

Sin has many tools, but a lie is a handle which fits them all.—Holmes.

ODDS AND ENDS AND THINGS

By J. D. C.

Emile Coue, the great French "auto suggestionist" or bunk artist, 'as you like it," used to have a formula for those who would drive disease away. Coue used to say "Every day in every way I am getting better and better." That was too long for us rapid traveling Americans so the great Emile says all is necessary for us is to say "Oh hell, I'm well," and after repeating the order a time or two, pains and aches all desert us.

* * * *

According to the figures now on file in the office of the County Commissioners, with an estimate as to the number from DuBois, there will be approximately 37,000 persons in Clearfield County eligible to vote at the primary election on Tuesday, September 18, 1923.

A further delving into these figures produces very little encouragement for Democracy, but as hope springs eternal in the Democratic breast and a Democrat is never so happy as when given an opportunity to fight, a little thing like a 7,000 majority means less than nothing in the life of the average Democrat.

The registration figures as compiled from the assessors books by the clerks in the Commissioners' office allowing the return of the September assessment show the different parties to have registered as follows:

Republicans	18,443
Democrats	11,756
Prohibitionists,	1,422
Socialists,	813
No Party	1,556
Total	33,990

DuBois, being a third class city, has personal registration and therefore the DuBois figures are not in the above total.

The law provides three registration days for third class cities and DuBois voters will complete their registration on Monday, September 29th. There are at present 1660 voters registered in the third class city as a result of the first two registration days. In former years DuBois registered as many votes on the last day as presented themselves on both the second and third days. Judging the future by the past DuBois registrars look for a total registration of approximately 3500, and the figures will no doubt reach that number.

Adding this total to the figures for the balance of the county will give us the grand total of 37,490.

Of the 1660 DuBois voters thus far registered 1307 are Republicans, with about 300 Democrats, the balance being chalked up as Prohibitionists, Socialists and No Party.

* * * *

Tuesday's Primary Ticket

For the purpose of refreshing the memory of Mr. Average Voter we give herewith a list of the candidates whose names will be found on the Primary ballot at Tuesday's primary. The names will appear under the different headings in the order here given:

Republican Ticket

For Judge—A. R. Chase, of Clearfield and Hazard A. Murray, of Clearfield.

County Controller—Grant H. Thompson, of Clearfield and A. G. Woodward, of Curwensville.

Prothonotary—George W. Ralston.

Recorder of Deeds—Milford Bratton.

County Commissioner—(two to select)—Samuel Gelby, Houtzdale; George W. Fox, Gulich Township; Jesse E. Dale, DuBois; W. B. Stephenson, Bell Township; William T. Thorp, Penn Township; John G. Maines, Bradford twp.; Thomas D. Small, Curwensville; Joseph E. Phillips, Clearfield; T. R. Weimer, DuBois and John Boyce, Clearfield.

Democratic Ticket

For Judge—J. F. Snyder, of Clearfield and Singleton Bell, of Clearfield.

County Controller—W. A. Hagerty, of Clearfield.

Prothonotary—John S. Chaplin, of Clearfield.

For Register and Recorder—E. V. Brown.

County Commissioner—(Two to nominate)—W. J. Hoover, Lawrence Township; W. S. Hand, Sandy Township; Blake W. McCracken, Mahaffey; Thomas A. Bowman, Woodward Township; M. L. Farrell, Clearfield; Mrs. Lila Dunlap, of Sandy Township Harrison Straw, Goshen Township.

There ought not to be any trouble about getting a ticket on primary day because while there will be but 37,000 registered voters the County Commissioners have had a total of 70,000 ballots printed. This number includes 55,134 official ballots, 11,921 sample ballots and 2,197 "absent voters ballots."

Vote for J. G. Mains.

HIGHWAY PARKING

(Continued From Page One.)

fety measures, "take a chance," and wreck not only themselves but others. The greatest offenders in this particular seem to be drivers from the state of Maryland; and in the southern tier of Pennsylvania counties it is hazardous to drive on Sundays because of the apparent ignorance or wilful carelessness of the men from Maryland. On isolated road sections where the highway emergency phones are not installed it is difficult to secure assistance. I know of several instances in which lives have been saved through prompt use of a nearby telephone; and the State should see that the service is universal in Pennsylvania."

The highway emergency telephone people this week, tendered the State Highway department keys to all telephone boxes on state highways, for use of the motorcycle patrol now being recruited. This patrol will first go into training at Mt. Gretna for about four weeks and it will make its appearance in Pennsylvania highways about the middle of October.

The "No-parking-on-the-road" rule issued in August by Highway Commissioner Wright is not observed in one section of the State. This rule forbids all parking which will "interfere with orderly passage of two-way traffic." It will be rigidly enforced by the new motor patrol.

Long Lines

It's the long line that makes one look thin. The line may be in the material itself—such as a stripe—or it may be in the style—a long panel, for instance. Large figures

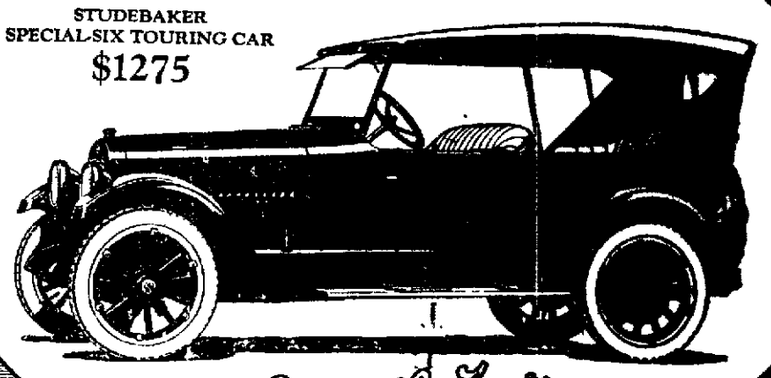
STUDEBAKER SPECIAL-SIX TOURING CAR $1275



Studebaker

One and One-half Billion Miles of Satisfaction

Studebaker Special-Six owners have driven their cars a total of more than one and one-half billion miles!

This enormous mileage has been piled up in everyday service over every conceivable kind of road and under every condition of weather throughout the world.

And no Special-Six has ever worn out. So far as we know there isn't a single dissatisfied owner. These one and one-half billion miles of satisfactory service prove positively the outstanding merit of the Special-Six.

It is the strongest recommendation possible for dependable performance, economical maintenance and long life. It is striking evidence of the high quality that is responsible for Studebaker Special-Six leadership in fine car sales.

To call a car "special" doesn't make it special unless there is special merit to back up the name. The Studebaker Special-Six is special not only in name but in performance. One and one-half billion miles to its credit are proof positive that it lives up to its name.

The name Studebaker is assurance of satisfaction.

One-piece, rain-proof windshield, automatic windshield cleaner and glare-proof visor. Quick-action cowl ventilator. Rear-view mirror. Combination stop-and-tail light, tonneau lamp with long extension cord. Running board step pads and aluminum kick plates. Eight-day clock. Thief-proof transmission lock.

Entered in Post Office at Clearfield, Pa., as second class mail matter.

Those who are inclined to believe that the proposed new trunk line via the Clearfield gateway is not making any progress are invited to take a lesson from the signs of the times.

The very fact that the Reading Railway, the Pennsylvania Railroad and other great carriers affected directly and indirectly by the proposal, are giving it closest attention and leaving no stone unturned in a campaign against it, is evidence that the N. Y. C. proposal has sufficient merit to cause them to think that it will have a great deal of weight with the Interstate Commerce Commission.

The Reading is so wrought up over the prospects of the N. Y. C. plan being accepted that they have practically forgotten their own case and have trained all their guns on opposing, much in the same manner as some candidates who believe they can ride into office over the remains of a reputation besmirched opponent.

The Pennsylvania Railroad day before yesterday saw fit to run a special train carrying officials into the city of DuBois, where the local situation was thoroughly canvassed. Their mission, they frankly admitted, was the proposed trunk line.

School has started and nearly three thousand happy faced future citizens of the best city on earth, at least that we know about, are daily wending their way back and forth across the streets to and from school.

Kids will be kids and, regardless of all the parental advice that it is possible to dole out, those who are high spirited and without a single care in the world will disregard all the rules of personal safety and subject themselves to traffic dangers.

Be this as it may, the accident on Market Street yesterday shows the need of every parent once more cautioning the children about being careful on the streets. The little fellow who was bumped and knocked over by a car backing out of a stall should not have been there. His place was on the sidewalk and, if it was necessary for him to cross the street, crossings are provided for that purpose.

The other accident, the one in which a car and a truck came together, gave another object lesson. In less time than you could say "scat" a half hundred little chaps,—and little girls too—from six to fourteen years of age, crowded out into the street filled with traffic. Passing cars could have easily hit any one or a dozen of them.

Gather the brood together tonight and lay down the rules once more. It may save a life.

Progress Editorial For Women

FOR SUMMER 1924 AND AFTER

By FLORENCE DAVIES

Although there are still many summer holidaymakers who have yet to come home from their brief resting spell among the lakes and mountains, along the national highways, among the national parks, or in the quiet of country villages, it is not too soon to begin to think of next year's vacations.

We say this because we have just been reading about a report which the Consumers' League has issued, on manufacturers who give their employes vacations with pay.

There are so many more who don't do it. And the reasons for doing it are so well summed up in the Consumers' League Bulletin. Moreover, the survey of which the report is the outcome, shows that there are many practical and economical plans by which manufacturers are arranging these with pay vacations.

And perhaps the strongest plea of all is made in the interest of workers who do the same trivial thing over and over through the eight hour day, with nothing to stimulate the brain cells that sleep through the deadly monotonous task.

Simple justice to these workers, it is urged, should entitle them to equal vacation opportunities with office workers, whose duties are more varied and more interesting, and often put more money into the pay envelope.

Suppose you sat all day before a punching machine making three holes in one bit of brass after another. Wouldn't you long for a change with every fibre of your weary body? Of course you would. The office worker who comes in contact with all sorts of people during her day; the girls behind the counter, the woman in the home who must attend to the iceman, postman, cleaning woman, lace peddler and other back door and front door callers during her busy day, has at least variety in her tasks and a chance that something or somebody that she very much wants may be just around the corner.

But the girls whose hands or feet move automatically through the same process hour in and hour out, day in and day out, using only one set of muscles and the smallest possible amount of brain power in the operation, needs someone to plead her cause as it has never been done before. May the Consumers' League persuade many times more than 49 employers—this season's white list—to see that the pay envelope holds vacation money next year.

The 49 all agree that the system of vacation with pay, "is sound industrial practice. That it is an investment that yields returns in renewed health and loyalty. That it does not necessarily interfere with the operation of the plant."

LAST LEGION DANCE OF THE SEASON

The American Legion stages their last Park dance of the season this evening in the Exposition Hall at the Clearfield Driving Park. This dance is a fitting climax to the series of dances this up-and-doing outfit has been giving the people of this section all summer. The orchestra for this evening's dance is of more than passing notice as it is led by Prof. C. L. Major, a former Clearfield boy. The Major-Botts orchestra is another of those instances where a Clearfield boy has started something and had the Clearfield way of seeing it thru.

DAUGHERTY TELLS COOLIDGE NATION IS SLOWLY DRYING UP

72,489 Convictions In Federal Courts In Past Year; 3,000 Years In Sentences Meted Out.

MILLIONS IN FINES

Washington, Sept. 12.—Conviction of judges, attorneys, federal and state officials and millionaires among the host found guilty of violating the prohibition laws was detailed in a report submitted to President Coolidge today by Attorney General Daugherty.

A synopsis of the report made public with the assent of the President, reviewed the federal judiciary's work in administering the prohibition law in the first 41 months of its operation. It showed that since the statute went into effect, January 16, 1920, more than 90,000 cases had been terminated in United States courts, with 72,489 convictions and fines aggregating $12,467,660. There has been a constant yearly increase in prohibition prosecutions, the report showed, while jail sentences for the past 23 months have totalled more than 3,000 years.

Daugherty's report also disclosed that more than a year ago he sent a special series of instructions to district attorneys on prohibition enforcement, demanding a more relentless campaign against bootleggers and other prohibition violators, especially "clouses," "rings" and so-called "leaders," in all large cities.

80 Per Cent Guilty.

In 80 per cent of federal court cases, the report said, the defendants were found guilty. Although the records for the last fiscal year are not complete, the report estimated that there had been at least 10,000 more convictions than in the preceding year and 15,000 more than two years ago. These figures, Mr. Daugherty said, indicated a stricter enforcement in every section of the country.

The attorney general told the President he was of the impression that the government's enforcement officials radiating from Washington were coping with the liquor problem in a highly satisfactory manner. Department of justice officials and agents, he said, were co-operating whole-heartedly everywhere and the co-ordination was resulting in general tightening of lines about liquor law violators.

73 Cases Every Day.

Prohibition cases have been brought in the federal courts at an average of 73.4 a day since the law went into effect, the attorney general said, but this rate was exceeded during the last year, the average being 211 a day. During the first five months of this year 4,497 more cases were disposed of than during the entire 1921 fiscal year.

Daugherty reported that the "padlock" provisions of the prohibition law had been one of its most effective weapons, enabling closing of many buildings where liquor was sold upon judgments that they were "nuisances." Increase of jail sentences also has been a deterring influence, Daugherty told the President.

Many of the big prohibition cases of the past year were reviewed in the report, including the Gary, Ind., conspiracy case, in which several officials were involved; that of the La Montagne brothers of New York; the conviction of former Mayor Frank K. Schwab, of Buffalo; John Douglas, clerk of the courts of Allegheny county, Pa.; Matthew F. Griffin, former secret service official at Philadelphia, and prohibition officials in Wisconsin and other states.

EUROPE'S GOAT!

KEPLER, OF BUTLER, PLEADS GUILTY, GETS SENTENCE SATURDAY

Butler, Pa., Sept. 13.—L. E. Kepler, former vice president of the Citizens Insurance Agency and Mortgage Company, plead guilty here today to fraudulent conversion of funds from the state had offered some defense at his trial. He will be sentenced Saturday. Other charges of embezzlement and removing property for the purpose of preventing it from have been dropped temporarily. Kepler was the promoter of the squab farm.

MRS BLAKE McCRACKEN BREAKS HIP ANKLE

Mrs. Blake W. McCracken, of Mahaffey, was brought to the Clearfield Hospital last evening suffering from a fractured [illegible] when she fell from an [illegible] truck at Mahaffey. Mrs. McCracken, who is one of the Democratic candidates for County Commissioner, was in Clearfield campaigning when notified of his wife's injury and went to the hospital waiting for her when she arrived. The break is a bad one.

Just What Will Happen

to your business, your money, your securities and your other property when it ceases to be your property and becomes your estate?

How will this change that will take place at your death affect those who are now dependent upon you for livelihood and comfort?

What steps can you take now to secure your family against the hazards and plights that will confront them?

These are important questions and demand care and thought and knowledge in their answering.—Consult our trust officers.

Curwensville's Own Column

Chas Dawes, one of Curwensville's local coal operators, spent a portion of this week in Philadelphia, on business relative to his coal trade.

Mrs. Mary Hudson, who spent the last two week visiting her parents Mr. and Mrs. Lew J. LaPorte, north Pine street, left yesterday for her home in Olean, N. Y.

Thomas Reed and wife were over from Osceola yesterday for a brief visit with his parents Mr. and Mrs. V. M. Reed, north Pine street.

The Ladies Auxiliary of the American Legion who have in charge the erection and purchase of a suitable monument to be placed in honor of Curwensville's soldier dead of three wars, had intended to have the marker ready for Armistice Day, but owing to unavoidable circumstances which have arisen lately, this plan had to be postponed and it has been decided to await until next Memorial Day to celebrate the occasion.

John Pifer, who makes it his special business to bore deep down into Mother earth in search of coal, iron ore, fire clay, or even lead, gold or silver, is attending the Brookville fair this week.

Miss Kate Smith a daughter of Mr. and Mrs. Oliver Smith, entertained a number of her young lady friends at her State street home yesterday evening. No males were permitted to enter the front or rear door and the ladies had just a fine time all to themselves.

Mrs. J. A. Gifford and daughter, Miss Maude, were guests in the home of Mrs. Joseph Whittaker, near Bridgeport, for a week. Wednesday they left for Springfield, Missouri, to spend the winter months with a married daughter and sister who lives there. For many years the Gifford family were residents of Curwensville, but removed to Clearfield where Mr. Gifford died January 2d, 1910. Miss Maude lately resigned as a cook at the Clearfield hospital.

The funeral of E. J. Kelly will be held from his late home on west end of State street, Friday forenoon. Interment of his body will be made in the Catholic cemetery at Clearfield.

Samuel Chuckabank, Jr., has purchased the Frank Fullerton homestead on Bloomington avenue and has removed his family thereto from a flat in the Rose Sweney block on State street.

Ira Shaffer claims the button for the best elderberry pie manufacturer in this section. "Doc" Thompson, who considers himself a competent judge, will go on record as a voucher for this broad statement, even though it is the first pie that Ira has tried his hand at for 55 odd years. The pie was made on Sunday, but "Doc" avers that it did not alter the good taste of it in the least.

The financial report of the Yellow Dog Labor Day celebration at Curwensville, has been completed and shows receipts of $4616.11, with expenditures of $3265.08, which leaves $1351.03 available for Irvin Park improvement. The detailed itemized report of receipts and expenditures is in the hands of the Committee on Finance and can be seen by any person interested. The report follows:

Nellie Revell Wins

Nellie Revell, famous press agent, has left St. Vincent's Hospital in New York City. She lay on her back there four years. Doctors said she would never be able to get up, due to her spine affliction. She is now able to sit up and walk a bit. Here she is surrounded by flowers, fruits and gifts of friends after her home-coming.

Hindoo Pagodas.

A pagoda is a Hindoo place of worship, containing an idol. It consists of three parts: An apartment surmounted by a dome, resting in columns and accessible to all; a chamber into which only Brahmins are allowed to enter, and a cell containing the statue of the deity, closed by massive gates. The most remarkable pagodas are those of Benares, Siam, Pegu and particularly that of Juggernaut, in Orissa.

Post Office Business Enormous.

In every single hour of the 24, 1,400,000 letters are mailed. Every day 33,600,000 letters go into the letter boxes. There are 21,000 railway clerks who cover a distance of 215,000 miles daily.

Watch the Smart Alec.

When some smart Alec tries to get you to invest in something, ask yourself if you have all the home comforts and labor-saving machinery you want.

Vote for J. G. Mains.

Mind Must Be Properly Employed.

The mind has a certain vegetative power which cannot be wholly idle. If it is not laid out and cultivated into a beautiful garden, it will of itself shoot up in weeds or flowers of a wild growth.—Steele.

Machine Does the Work.

The final operation in the manufacture of jar caps, salve and pill boxes, bottle caps and similar articles, such as threading, knurling, beading, curling and trimming, are performed by rolling, using an automatic machine.—Scientific American.

Call for Affidavit.

I had been on a visit to my father and was returning home with an expensive typewriter he had given me. He insisted I write my name and address on the bottom. I put it in the rack on the train, to go about it, and got off. A few days later it came to me by express. I never knew who found it and was so kind to return it.—Chicago Journal.

DEER HUNTERS ATTENTION
Buckey Richards' New Hunting Lodge opened this season on the Clearfield mountains 4½ miles from Curwensville. Accommodations are right and the eats are great. Can handle about 23 or 24 hunters. Located in one of the best deer hunting spots on the mountains. For any further information call on Buckey Richards, the man who has cooked for 18 seasons on the mountains. 9|13|3t|ch

PIANO TUNER
W. E. Beck, the practical piano tuner of Lock Haven, Pa., will be in town the next two weeks. Phone or leave address at Woodward & McPherson's Drug Store or Dimeling Hotel. 9|13|3t|ch

Stolen: Radio set on South Fourth street. Woman saw boy break lock and go in shed. Return set at once or will be arrested. 9|13|3t|ch

The W. C. T. U. will meet at the home of Mrs. Runkett on Locust St. on Friday evening, Sept. 14, at 7:30 p. m. 9|13|1t|ch

NOTICE BIGLER
The Ladies' Aid of the Bigler U. B. church will hold a chicken and waffle supper on Saturday evening, Sept. 15. Music by the Bigler Citizen's Band. Be There. 9|11|4t|ch

NOTICE
It has been brought to my attention that persons are circulating reports throughout the County that I have withdrawn as a Candidate for President Judge of Clearfield County at the coming Primary, as well as numerous other stories of a similar nature. Such tactics are frequently used as part of a political campaign and generally during the closing hours when a candidate is unable to correct any false or misleading statements.

I wish to warn my friends throughout the County to beware of all such statements and to carefully investigate before voting. I am a candidate and expect to be nominated at the primary, and believe my record as a Judge justifies the voters of the county in supporting me.

Tom Sims SAYS---

The real trouble with all narrow-minded people is they are too narrow-minded to admit it.

This is the season the school boy think a little knowlede is a dangerous thing.

Staying up all night may make you as wise as an owl, but owls have no sense during the day.

Tomatoes once were called love apples. This may be why they are best taken with a grain of salt.

There are so many new kinds of stamps and money you need a college course to recognize them.

What this country needs most is a law requiring all bills to be sent anonymously.

Taking a drink of the average bootleg booze will not run a man crazy. It doesn't have to.

How times change. Only stage robbers left are the chorus girls. They loot the fast males.

Don't throw away your straw hat. Be honest. Take it back to the cafe where you got it.

Powder sprinkled on her partner's neck will keep a girl's nose from getting shiny at a dance.

Rich men should keep their sons away from dances. Girls always want to catch the fresh heir.

Keep cold cream covered or you may find a fly in the ointment.

CHARTER NOTICE
Notice is hereby given that an application will be made to the Governor of the State of Pennsylvania, on the 19th day of September 1923 by THE FULLINGTON AUTO BUS COMPANY, under the provisions of the "Corporations Amendment Act of 1883, P. L. 122, and its supplements," for the improvement, amendment and alteration of its charter, the character and object of which amendment is as follows:

Section two of the said original charter to be amended to read as follows:

2nd: Said corporation is formed for the purpose of owning and operating motor vehicles and similar conveyances for the transportation, as common carriers, of persons, freight, merchandise and other personal property, therein, for hire, in the counties of Clearfield, Center and Blair, and particularly between the following places: Borough of Clearfield, Borough of Curwensville, and also between the Borough of Clearfield, Village of Woodland in Bradford Township, Village of Bigler in said Bradford Township, Borough of Wallaceton, Village of Blue Ball in Boggs Township, Borough of Philipsburg in Center County, Village of Retort, Village of Sandy Ridge in said Center County, Village of Bald Eagle, Village of Vail in Blair County, Borough of Tyrone in said Blair County, over the following routes: over the streets of the Borough of Clearfield and also the public road in Lawrence Township, which is an extension of Turnpike Avenue in the said Borough of Clearfield; and over public roads between the Borough of Clearfield, Lawrence Township, Pike Township and the Borough of Curwensville; and over public roads in Lawrence Township and Bradford Township to and through the Village of Woodland in said Bradford Township, to and thru the Village of Bigler in said Bradford Township; thence by public road in Bradford Township to and through the Borough of Wallaceton; thence by public road through Bradford Township and Boggs Township to and through the Village of Blue Ball in Boggs Twp.; thence by public road to the Borough of Philipsburg in Center County, and in the Borough of Philipsburg by the public streets thereof to the corner of Presqueisle and Main Street; and from the Borough of Philipsburg, Center County; thence following State Highway Route No. 57 to and through the Village of Retort, to and through the Village of Sandy Ridge, in Center County; thence to and through the Village of Bald Eagle, to and through the Village of Vail, in Bair County; thence to the Borough of Tyrone, in the said Blair County, and in the Borough of Tyrone by the public streets thereof to the corner of Pennsylvania Avenue and 10th Street and from said corner along Pennsylvania Avenue to the end thereof; and between such other points in the said counties, or in any of them, by such other route, or routes, as shall thereafter be approved by the Public Service Commission of the Commonwealth of Pennsylvania, as evidenced by its certificate, or certificates of public convenience.

And for this purpose to have, possess and enjoy all the rights, benefits and privileges of the Act of Assembly and its supplements.

ARNOLD & PLATT,
8|23|30 9|6|13 Solicitors.

ADMINISTRATOR'S NOTICE
In the Orphans' Court of Clearfield County, Pennsylvania.
In reEstate of Andrew J Anderson
By virtue of an order of the Orphans Court of Clearfield County, Pennsylvania, bearing date September 4, 1923, there will be exposed at public sale in the Arbitration Room of the Court House in the Borough of Clearfield, County of Clearfield, at 10:30 o'clock A. M. on Monday, the first day of October 1923, the following tract or parcel of land.

ALL that certain lot or piece of ground situate in the Borough of Grampian, County of Clearfield and State of Pennsylvania, bounded and described as follows:—

BEGINNING at corner of lot No. 9 on Blain Street; thence North, 19 degrees East. Fifty (50) feet to lot No 11 and joining Blain Street; thence South, 71 degrees East. One hundred and fifty (150) feet, joining on lot, now or formerly, of William C. Rus-

sell; thence South 19 degrees West Fifty (50) feet joining lot now or formerly, of W. C. [illegible] North, 71 degrees West, One hundred and fifty (150) feet to Blain Street and place of beginning, and being part of the W. C. Bilger plot or addition to said Grampian Borough formerly Pine Hill Borough.

BEING the same premises which E. H. Woolridge, High Sheriff of Clearfield County, by his Sheriff's Deed dated [illegible] and recorded in Deed Book No. [illegible] page [illegible] conveyed to State [illegible] Loan Association, who by Deed dated September 15th, 1920, recorded in Deed Book No. [illegible] page [illegible] conveyed the same to Andrew J. Anderson, now deceased.

TERMS OF SALE: Twenty per cent of the amount bid, to be paid in cash at the time of bid and the balance upon execution and delivery of Deed for the premises upon confirmation of the same by the Court. The Administrator reserves the right to reject any or all bids and to decline to dispose of the property at the prices bid, as well as to adjourn the sale from time to time and place to place, or to discontinue the same in his discretion.

W. C. [illegible]
Administrator
ARNOLD & PLATT. 9|6|13|20|27|c

CHARTER NOTICE
Notice is hereby given that an application will be made to the Governor of the State of Pennsylvania, on Friday, September 28, 1923, by Frederick E. Sherkel, Carl M. Sherkel and John Sherkel, under the Act of Assembly of the Commonwealth of Pennsylvania entitled "An act to provide for the incorporation and regulation of certain corporations" approved April 29, 1874 and the supplements thereto, for the charter of a proposed corporation to be called the Bald Eagle Realty Company. The character and object of which is the purchasing, leasing, holding, improving and selling real estate and for these purposes to have, possess and enjoy all the rights, benefits and privileges of the said Act of Assembly and its supplements.

W. ELDRIDGE BROWN,
9|13|20|27|ch Solicitor.

NOTICE TO HEIRS
In the Orphan's Court of Clearfield County, Penna.
In Re. Partition of the real estate of Henry L. Peace, late of Bell Township, deceased.
To Hamilton [illegible] and other heirs and parties interested.

You are hereby notified that upon petition to the Court the said Court awarded Citation, returnable the 1st Monday of October A. D. 1923, upon the heirs of the said Henry L. Peace to shew cause why an [illegible] should not be had of the [illegible] of the said Henry L. Peace. You are hereby notified that unless exceptions are filed to the awarding of said inquisition the same will be confirmed by the Court on Monday the 1st day of October A. D. 1923.

CHEAP MOVIES AND TRASHY STORIES BLAMED FOR BOYS' 'TORTURE' DEATHS

By ROB DORMAN
(NEA Service Staff Writer.)

Belmar, N. J., Sept. 10.—"Wild West" movies plus lurid detective tales plus juvenile imitativeness equals tragedy.

Such a sum brought about the death of two others, held for the grand jury. The deaths came by fire while the four youngsters were playing "Indian" after the fashion of the cheaper movies.

Caleb Hubbard, 18, his brother Willie, 16, Hubert Forman, 16, and Charlie Spindler, 11, were the actors in the tragedy. But only Caleb and Hubert are alive to tell the tale. One is in jail in Freehold, the county seat; the other is at home under bail.

Here, for the first time, is the story of the tragedy, as they told it, in an exclusive interview with NEA Service.

After an afternoon of swimming and baseball, the boys began skylarking as they turned their steps homeward.

They wanted to have some excitement, but didn't know just what. Suddenly, one of them who had been feasting up on detective stories, suggested:

"Let's play sleuths."

In a winkling, Caleb and Hubert took the lead. As detectives, they seized and bound the other two boys with twine. Then they put them in a large packing case found in a hollow in the woods, back of the gas company's plant. This was the jail.

But this wasn't exciting enough. A search was made of the pockets of the prisoners. Some matches were found.

"Why not burn the prisoners at the stake, like the Indians did?" was the idea suggested by one of the boys looking at the match. No quicker said than done.

HUBERT FORMAN AND CALEB HUBBARD (RIGHT)

The two bound boys were stood against a tree in lieu of the traditional stake. A small piece of excelsior was fired.

Ordinarily no harm would have resulted—but the boys had failed to take into account the oil-soaked grass.

Flames shot high in the air, enveloping the two victims.

Frightened by the cries of the two burning boys, Caleb and Hubert dashed in to free them. They broke the twine that bound the boys, burning their own hands as they did so. But the damage was done. Willie and Charlie died soon after.

A sobered Hubert sits at home with his mother. The smile of youth is missing from his face. He is out on bail awaiting the action of the grand jury.

"We didn't mean to hurt them," he says. "We were just playing like we saw in the movies."

His voice is flat, with a dead undertone of horror. From his face, with its high cheekbones and heavy eyelids, his eyes look out on the world with a sullen look of defiance.

He defends his friend Caleb vigorously.

"Caleb is all right. It would have been just the same with any other boys. People don't like Caleb because he's poor."

But Hubert's mother is not a ly disposed toward Caleb.

"I didn't want Hubert to play with him," she says, "but he would. Now look in what a mess he is."

Who lighted the fatal match is a secret.

With a boy's loyalty, Hubert says, "I don't remember."

Caleb, in jail at Freehold, is equally reticent.

He also "doesn't remember."

Caleb is undersized for his age. His pinched face is sallow, with sullen eyes looking forth suspiciously upon a world that has never held much of pleasure for him.

He admits his fondness for lurid detective stories.

Tears came to his eyes when questioned about his dead brother.

"We didn't mean any harm," he cries. "I loved Willie, and wouldn't have had anything happen to him for anything.

"I carried him to the water after we had broken the string that bound him. My hands were all burned." He displayed two hands on which the burns were still visible.

The tears rolled down his cheeks.

But, like Hurbert, he refuses to say who lit the fire.

Trashy literature and cheap movies have once more taken their toll.

That Was Different

"I could get no speed out of the motor car you sold me," said Brown. "You told me you'd had it overhauled, but it was still full of carbon." "So I was," replied Jones, "but I thought you'd like a change."

Where Do You Get Off?

If a man gets off a car backward when you're with him, you can generally tell that he has been in the army. Ask him if he likes coffee and what he thinks of the food in the trenches.

Camel Something Like Coat.

A camel in the midst of green grass languishes and grows thin, but surrounded by scrub brush and thorny desert vegetation he is thoroughly happy and contented.

Captive Mocking Birds.

Mocking birds when taken from the nest young readily become accustomed to cage life and may live for many years. They are easily taught and often improve greatly with careful training.

Insects Used for Cochineal Dyes.

Nineteen thousand insects are required to make one pound of cochineal dye. Only the bodies of the females are used. They are wingless and each one produces over 1,000 young which spread over the plants or piety.

Trick With Letters.

Here is a bit of catch spelling from the Pathfinder. Ask your friend if he can spell "capitalization" with only seven letters. The answer is "I-zation," which is capital I-zation, isn't it?

Tunnel Took Seven Years to Build.

The Simplon tunnel, the longest railway tunnel in the world, was commenced Nov. 13, 1898, and was completed in 1905. It was 12½ miles in length and gives France and Switzerland direct communication by rail with Milan, Italy.

The Wrong Course.

Some fellows don't try to master their work; they are too busy trying to work their master.—Boston Transcript.

A LAUDABLE ENTERPRISE

Friday evening, September 14th, the good people of the Reedsville vicinity are asked to gather at the Reedsville chapel at a festival which will be held for the purpose of raising funds to re-roof the chapel.

Daily Meal Suffices Eskimo.

Of races which inhabit the world today the Eskimos stand first as devourers of meat. They usually eat but one meal a day and then gorge themselves with tough meat so that they develop big jaws and enormously distended abdomens.

Both Flimsy.

Seaside engagements are usually flimsy affairs. During the hot weather love and clothing are both light weight.—Boston Transcript.

W. C. T. U. HONOR CRUSADERS OF OTHER DAYS IN NATIONAL CONVENTION AT COLUMBUS, OHIO

OFFICERS OF THE NATIONAL W. C. T. U.

Reading from left to right (top row): Mrs. Margaret C. Munns, Treasurer; Miss Anna A. Gordon, World and National President; Mrs. Ella A. Boole, Vice President (Treasurer of the World W. C. T. U.). Middle row: Mrs. Elizabeth Preston Anderson, Recording Secretary; Mrs. Frances P. Parks, Corresponding Secretary. Lower right: Mrs. Sara H. Hoge, Assistant Recording Secretary.

CRUSADERS of early temperance days are being honored throughout the sessions of the Crusade Anniversary Convention of the National Woman's Christian Temperance Union which began in Memorial Hall, Columbus, O., on Sept. 4, and continues until Sept. 14.

Several thousand women will take part in a March of Allegiance, a spectacular street parade, in which all the delegates will join together with leading women from all the other women's organizations in Columbus, Saturday afternoon, September 8. Floats showing the work of the twenty-six departments of W. C. T. U. work and the progress of the organization since 1874, will be a feature of this parade.

Mrs. John Gordon Battelle, appointed a member of the National Republican Committee by the late President, Warren G. Harding, headed a Committee of 5,000 Columbus women, who welcomed the W. C. T. U. delegates from all over the United States.

Distinguished speakers, addressing various sessions of the convention, are: Gov. Donahey, Miss Grace Abbott, Senator Fess, Representative Cooper, Mrs. Mabel Walker Willebrandt and Dr. Mary Harris Armor, "the Georgia Cyclone". State presidents on the program include Mrs. Ida B. Wise Smith, Iowa; Mrs. Lillian M. Mitchner, Kansas; Mrs. Eva C. Wheeler, California; Mrs. Nelle G. Burger, Missouri, and Mrs. Florence Richard, Ohio.

Miss Anna A. Gordon, world and national president of the W. C. T. U., in her address stressed the influence of women in bringing about the prohibition amendment and the outlook for the 1924 election.

CROP REPORT OF SEPTEMBER 1st

Rains during August caused some improvement to growing crops, but all excepting spring wheat, tobacco and peaches are below last year's estimate and the average for the past ten years, according to the report issued today by G. L. Morgan, agricultural statistician for Pennsylvania, U. S. Bureau of Agricultural Economics.

Corn.

The condition of the crop on September 1 was 85 per cent of a normal, indicating a yield of about 40.7 tons per acre and a production of 62,062,000 bushels as compared with 69,212,000 bushels, last year's final estimate, and 64,470,000 bushels, the average production for the past ten years.

Spring Wheat.

The condition of spring wheat on September 1 or at the time of harvest was 81 per cent of a normal, indicating a yield of about 15.8 bushels per acre and a production of 221,000 bushels as compared with 210,000 bushels last year and 228,000 bushels, the average production for the past five years.

Oats.

The condition of the crop on September 1 or at the time of harvest was estimated at 69 per cent of a normal, indicating an average yield per acre of 26.9 bushels and a production of 31,996,000 bushels as compared with 41,242,000 bushels, last year's final estimate, and 39,393,000 bushels, the average production for the past ten years.

Barley.

The condition of the crop on September 1 or at the time of harvest was 81 per cent of a normal, indicating a yield of 23.5 bushels per acre and a production of 282,000 bushels, as compared with 296,000 bushels last year and 299,000 bushels the average production for the past ten years.

Buckwheat.

The condition of the crop on September 1 was 80 per cent of a normal, indicating an average yield per acre of about 18.4 bushels and a production of 4,434,000 bushels, as compared with 5,203,000 bushels last year and 5,091,000 bushels the average production for the past ten years.

White Potatoes.

The condition of the crop on September 1 was 65 per cent of a normal indicating an average yield of about 79.3 bushels per acre and a production of 20,539,000 bushels, as compared with 28,512,000 bushels last year and 24,398,000 bushels the average production for the past ten years.

Hay.

The condition of all tame hay on September 1 or at time of harvest was 65 per cent of a normal, indicating a yield of .99 tons per acre and a production of 3,018,000 tons as compared with 4,880,000 tons last year and 4,278,000 tons the average production for the past ten years. The average yield of timothy this season is estimated at 1 ton per acre, as compared with 1.5 tons last year and 1.42 tons the average yield for the past ten years. The condition of clover for hay, all cuttings, on September 1 is estimaetd at 67 per cent of a normal as compared with 97 per cent last year and 86 per cent the average condition for the past ten years on September 1. The condition of alfalfa, all cuttings, on September 1 was estimated at 82 per cent of a normal, as compared with 98 per cent last year and 95 per cent the average condition for the past ten years on September 1. The condition of wild hay on September 1 was estimated at 67 per cent of a normal, indicating an average yiel dof about .88 tons per acre and a production of 20,000 tons as compared with 28,000 tons last year and 26,000 tons the average production for the past ten years.

Clover Seed.

It is estimated that the acreage of clover saved for seed this season is 23 per cent less than a year ago. The condition of the crop on September 1 was 65 per cent of a normal, as compared with 85 per cent last year and 81 per cent the average condition for the past ten years on September 1. The condition this year indicates an average yield of about 1.1 bushels per acre.

Fruit.

Apples. The condition of the total or agricultural crop on September 1 was 63 per cent of a normal, indicating a production of 10,521,000 bushels as compared with 11,400,000 bushels, last year's final estimate, and 10,731,000 bushels, the average estimated production for the past three years.

The commercial crop this year is estimated at 1,227,000 barrels, as compared with 1,216,000 barrels last year and 995,000 barrels the average commercial production for the past three years.

Peaches: The total production of peaches this season is estimated at 77 per cent of a normal or 1,907,000 bushels as compared with 1,560,000 bushels, last year's final estimate, and 1,303,000 bushels, the average production for the past three years. The quality of this year's crop was 93 per cent of a normal, as compared with 90 per cent last year and 86 per cent the average quality for the past ten years.

Pears: The condition of the crop on September 1 was 60 per cent of a normal, indicating a production of 526,000 bushels, as compared with 576,000 bushels last year and 547,000 bushels the average production for the past three years.

Grapes: The condtion of the crop on September 1 was 83 per cent of a normal as compared with 95 per cent last year and 77 per cent, the average condition for the past ten years on September 1. The condition this year indicates a production in the commercial area of Erie county of about 18,000 tons. The New York crop this season is estimated at 55,137 tons.

Ward's Wife Sticks To Him In Court, Risking Criticism Of Crowd

White Plains, N. Y., Sept. 13.—Mrs. Walter Ward, who stuck by her husband while the world maligned him with stories of wild escapades, came to court today to sit near him while attorneys went on with the selection of the jury, which is to try him for murder of Clarence Peters, ex-sailor.

Risking the criticism of the crowd, she walks calmly into the chamber and braved the eyes of curious women spectators. She was missing the first day of the trial, it being said she was ill in an Atlantic City hotel.

Learn to Do Things Yourself.

Doing things yourself will make you a better master for others. Your experience will teach you measures, values, and merits. You are a much better boss when you can do things yourself.

Laws Make for Nation's Strength.

Wise laws and just restraints are to a noble nation not chains, but chains of mail—strength and defense, though something of an incumbrance.—Ruskin.

How Shoes Are Numbered.

Shoes were originally numbered according to the length of a grain of barley, in a system of enumeration by thirteens. This scheme is the basis of the present system of numbering.

Boys Don't, Either.

No, Roger, a farmer does not have to study navigation to get the bearings of a fruit tree.—Boston Transcript.

The Boyish Woman.

I think it is the boyish woman, curt and kind and impersonal, who gains the confidence of other women.—"Staking a Larkspur," by Anne Douglas Sedgwick in Century Magazine.

Smoke Instead of Eat.

The women of Russia make the excuse for their general adoption of smoking habit that they puff a cigarette as a relief to hunger.

Delights of Suspense.

It is the ifs and buts that give life its real zest; the painful progress toward certainty rather than the complete and finished certainty itself.

Chivalry.

A Maryland health official declares that the safest place to kiss a girl is on the nape of her neck. Not in this country, for we Americans are much too honorable to steal up on 'em from the back.

Vote for J. G. Mains

Cow hide and calf skin are converted into shoe leather by a process called tanning. This process preserves the natural oil and toughens the hide. The wear in your shoes depends upon it.

Good Tanning means Long Wear

Easier than choosing sides

to choose the best in school shoe values

SCHOOL shoes used to be a problem for mother. Not any more. She has learned to get the utmost in value by demanding E-J's.

Endicott-Johnson, the World's Largest Tanners and Shoemakers, have specialized on children's shoes. In producing them, every bit of their skill and knowledge in tanning, shoemaking and reducing manufacturing costs has been employed. Every means that will keep down prices to you without sacrificing quality has been used. And the result—shoes your boy can wear and wear; prices that mean a big saving on family shoe bills.

The man who has no worries and knows matters at home are all right does the best work. E-J workers have everything to make them happy and contended.

School days are here again. Its high time to think about shoes. Be sure to see the new E-J's for boys and girls.

"Better Shoes for Less Money"

WILL SOON PRESENT ACCEPTABLE PLAN ON PUBLIC LIBRARY

Clearfield people long interested in a public library for the town will be pleased to know that plans for presenting of the project to the people of the town generally are and have been underway for some time. Those interested in the project are about ready to put the matter before the people in a manner which will give all the opportunity of saying just what they think on the subject and deciding what is to be done toward making such an institution possible in Clearfield.

Some time ago there was considerable agitation looking toward the establishing of a free county library and much missionary work done toward showing the people of the county that it was not only a good thing but should be made possible here.

Those favoring the project thought the time was not quite ripe yet to attempt it as a county proposition, but that movement resulted in the appointment of a local committee on the proposition and this committee after canvassing the matter from every angle are about in shape to bring the matter before the people of the town as a whole and this soon be done.

WON MANY 'VARSITY HONORS

Harry Bolles, Yakima, Wash., Brother of National Adjutant, Now Naval Officer.

Captain and stroke of the 'varsity crew at the United States Naval academy, would be more than enough glory for the average "middy" at Annapolis to aspire to. Add to this three years on the 'varsity crew, three years on the 'varsity football team, and membership on the boxing and wrestling squads, and you have quite a record. Add still the Naval academy cup, awarded to the graduate contributing most to the advancement of athletics in the academy during the year, and you have a part of the accomplishments of Harry Bolles, of Yakima, Wash., a brother of Lemuel Bolles, national adjutant of the American Legion, who has just received his commission as a naval officer from Uncle Sam.

Ensign Bolles is a World war veteran, and a member of the American Legion, having enlisted when seventeen years old at the outbreak of the war. He served for two years as a member of the crew on the transport "Great Northern." After the war he obtained his entrance to the Naval academy by passing the hardest sort of competitive examination, where he made good from the start.

FINE KANSAS CITY MEMORIAL

Erection of Splendid Structure to Perpetuate Memory of World War Heroes Now in Progress.

Work of erecting the huge Liberty memorial in Kansas City, Mo., has begun and at least 18 months will be required for completion of construction, according to contractors in charge of the work. The memorial is to take the form of a monumental building and tower to perpetuate the memory of heroes of the World war.

The principal feature of the shrine is the 216-foot stone shaft above the building proper. This towers 350 feet above the Union station plaza and may be seen for miles. At the base of this shaft four sculptured figures representing Courage, Honor, Patriotism and Sacrifice—of heroic proportions, stand as guardians to the "Flame of Inspiration," to burn on the altar atop the towering shaft. These figures are to be designed by Robert I. Aitken, a sculptor of considerable repute, who saw service in the World war.

The edifice itself, to be known as the Memorial and American Legion building is to be a massive structure of stone and steel, surmounted by the great shaft. The total construction cost is over $1,000,000, which does not include mural paintings, sculpture, lighting, landscaping and other work necessary to completion, all of which are estimated to run up at least three-quarters of a million dollars.

Rubber Obtained from Many Plants.

More than 200 species of plants yield latex from which rubber may be obtained.

Far From the Madding Crowd

Charles G. Steinmetz, wizard of electricity, finds a quiet spot on the Mohawk river near Schenectady, N. Y. There with board stretched across the gunwales of his canoe he works out new problems in volts and watts. Although Steinmetz has spent his summers for 25 years at this camp, this is the first picture of him to be taken there.

Not Weaker in Some Respects.

Women are generally classed as the weaker sex, yet the average woman who goes about her ordinary household tasks in a conscientious way; and those who have figured out the problem, performs feats of strength and endurance that would put many a so-called strong man to shame.

Peculiar Combinations.

An English woman recently wrote to a newspaper saying that she was born A. Mann (Alice Mann). She married a Mr. Husband, and so became A. Husband. He died and she married again, this time a Mr. Malden. Becoming a widow for a second time, she concludes that, though born A. Mann, she will die A. Malden.

Joy in Service to Others.

When a man goes upwards he can lead a score of others with him, if he will. There's no joy like that which comes from a useful life—the perpetual effort not only to make the most of ourselves but to help others as we go. Leading others is service to others.—Gibb.

KLAN AGREES TO ABIDE BY LAWS OF OKLAHOMA

Oklahoma City, Okla., Sept. 11.—Bowing to Governor J. C. Walton's edict against masked assemblages, State officials of the Ku Klux Klan, have issued an order here forbidding klansmen in Oklahoma to hold masked parades or meetings.

The decision of Klan officials to abide by the Executive's decree was announced by N. C. Jewett, Grand Dragon of the Oklahoma realm of the Klan.

It came when preparations were under way by Governor Walton to use troops if necessary, to prevent a series of Klan demonstrations scheduled over the States this week, the first of which was advertised for Pristow last night.

Adjutant General Markham had been instructed earlier in the day to hold national guard units in readiness for movement to the counties in which Klan parades were planned.

Dragon Does Good Work.

The dragon fly is a great destroyer of insects—particularly of mosquitoes. This bird wishes these annoying creatures in sight and the bureau of entomology scientists contend that its consumption of this species of insect is beyond calculation.

Daily Thought.

The calm or disturbance of our mind does not depend so much on what we regard as the more important things of life as in a judicious arrangement of the little things of daily occurrence.—La Rochefoucauld.

Gallery Might Do.

A youngster with plenty of snag frolic but little money, was inviting his best girl to go to see the stock company at a local theater. "Well, I'll get the tickets this afternoon," he said. "How's your hearing and eyesight?"

MICKIE SAYS—

Playing Safe.

Harry's folks noticed he was content to play in his own yard and wondered why he didn't tease to go and play with the boys on the vacant lot. When asked about it he said: "Well, I'm a regular scrapper when with my own gang, but there's a boy visiting here and I don't know whether I can lick him or not; so I'm waiting till he's gone home. I like our yard best anyway."

Tame in Captivity.

Two bugs that will try the patience of the photographer are the dragon fly and rove beetle, says Nature Magazine. Both are ferocious, preying creatures, but, like most wild things, if reared properly, will submit to captivity without fatal results. By placing a large dragon fly in the large glass box and supplying plenty of house flies, splendid pictures are obtained of this insect hawk feeding upon its victims.

Glass Blowing Long Practiced.

In the British museum there is a lion's head of glass found at Thebes, bearing an inscription which places its date 2400 B. C. In the tomb of Beni Hassen, dating at least 2000 B. C., the process of glass blowing is represented.

Imperative Need of Rest.

There are moments when all anxiety and stinted toil and desire must cease, in the infinite leisure and repose of nature. Laborers must have their morning undisturbed.—Thoreau.

Tonics For Underweight Kiddies

If your kiddie shows the first strain of the opening of school and appears to lose flesh and look run down, we have a tonic here that will bring him or her back.

Come in and ask us about it.

STEWART'S DRUG STORE CLEARFIELD, PA.

WILL ERECT FINE HUNTING CAMP

The Clearfield Hunting Club, an aggregation of local hunters and sportsmen who recently purchased the Nettie Solladay place on the Penfield side of the mountain, adjoining the Frank Johnson place along the Penfield road and about twelve miles from Clearfield, are arranging to make substantial improvements about the place.

These improvements consist of a new camp 28x40 feet in size with all modern conveniences and equipment. The second floor will contain sleeping quarters for thirty-two men in addition to five private sleeping rooms, bath, etc.

The camp will be lighted by a Delco electric system and an electric pump will supply water from a convenient well.

The camp is located in a fine deer and small game country and is a most desirable spot.

STRIKE SHUTS 310 COAL MINES; DAILY WAGE LOSS IS $750,000

Here are some impressive statistics on the anthracite strike:

Number of larger companies affected, 60.

Number of collieries affected, 310.

Number of miners affected, 158,000.

Number of miners' families affected 20,000.

Number of maintenance men working, 3,000.

Estimated daily loss in wages to men, $750,000.

Estimated daily loss in production, 300,000 tons.

Monthly loss in taxes on coal to the state of Pennsylvania, $600,000.

Estimated number of anthracite using homes affected by the strike, 15,000,000.

THE BRADLEY

A Plan for Bungalow Built for Comfort.

In planning this four-room bungalow the architects had in mind the person who is happiest with everything "all on one floor." He endeavored to do away with stairs that they eliminated the necessity for a cellar. A combined modern radiator boiler in the kitchen provides hot water heating for the whole house. A coal room is provided in the kitchen entry where there is also space for the refrigerator which can be iced from the outside.

This house has plenty of closets, even the kitchen has one, there are two in the living room back of the fireplace, there is a linen closet and each bedroom is generously provided for.

The kitchen is ideal in its step-saving arrangement. The sink drainboard and space for two laundry tubs come under high windows. There is ample wall space for the range and heater opposite minimizing work near the hot stove. There is room also for a laundry machine and dish washer if desired.

The dining alcove is so close to the kitchen as to be almost a part of it. Besides its cozy open fireplace, a feature of the living room is the arrangement of openings so as to give enough wall space for the placing of furniture. A generous porch along the front is so built that it may be screened or glazed. The two commodious bedrooms and the bath are reached from a small hallway off the living room.

The pleasing roof lines of this snug little house enhance its appearance of both permanence and dignity. The pitch is high enough to allow for two additional bedrooms in the attic. These could be reached by a stairway at the end of the living room.

This home can be made entirely fire-safe by covering the roof with fire-resistive cement-asbestos shingles or concrete roofing tile. Besides the security which such protection gives, maintenance and depreciation costs are reduced to a minimum.

For the shore or mountain cottage nothing could be better than concrete block construction with an attractive coat of portland cement stucco of a texture and color to meet one's personal ideas. This individuality of appearance may be added at practically the same cost as less desirable, inflammable construction, the difference being seldom more than 5 per cent, and in some cases the cost is the same. Removed, as such houses are from fire-fighting service, fire-safe construction is an important consideration.

U. S. IN NO HURRY TO SEND AN AGENT TO MEXICO CITY

Washington, Sept. 12.—President Coolidge is satisfied with the status of relationship with Mexico for the time being ,and will not appoint an Ambassador to the southern republic just now.

This statement was made at the White House for the President today in denial of reports that he is about to announce the appointment of R. B. Creager, of Texas, to the Mexico City Post.

When thou time comes to select a Mexican Ambassador, it was said, Mr. Coolidge will confer with Secretary of States Hughes and will be guided by his recommendation.

The belief prevails that no appointment will be made until after Congress meets in Dciember, in order that it may be acted upon by the Senate before sending the appointee to the Mexican capital.

Mexico City Sept. 11—The revolutionary claims convention, framed at the pre-recognition conference here, was signed at noon yesterday by Foreign Secretary Pani, for the Mexican Government ,and George T. Summerline Charge d'Affaires, for the United States, it was announced today.

The convention provides ,after approval by the United States and Mexican Senates, for the creation of a mixed commission to settle American claims for damages suffered in consequence of the revolution between November 20 1910, and May 20, 1920.

To Remove Dust From Clock.

It is not always necessary to take a clock to pieces to clean it. Soak a piece of cotton wool in paraffin, place this in a tin lid or small saucer and put it in the case of the clock under the works. In a day or two it will have attracted all the dust which has impeded the movement of the clock

Notary Public.

The qualifications for a notary public are just ordinary intelligence and honesty So far as age is concerned, any age after twenty-one will fill the bill.

Wigs Have Long Been Worn.

The custom of wearing wigs is great antiquity If, as seems proved the curious head covering of the figure in a prehistoric ivory carving is a wig the adornment may be traced be 10,000 years. Certainly the Egyptians wore wigs as part of the royal and official costume The Greeks, too, were addicted to the vanity

Of Course She Didn't Ask for It.

Evelyn had been instructed by mother not to ask anyone for a penny. Later her aunt opened her purse to take a nickel to use in the telephone, and Evelyn shyly glanced in Seeing one lone penny, she remarked that she thought pennies were such a nuisance in a big lady's purse.

Tunnel Far Above Sea Level.

One of the most wonderful of railway tunnels is the trans-Andean, in South America which was opened in 1905. This great tunnel, which affords direct rail communication between Argentina and Chile is only five miles in length but it surpasses all others in being 12,000 feet above sea level.

Fishing Catch Not Wanted.

Octopuses numbering more than 5,000 were landed during one week by the fishermen of northern France.

Thought for the Day.

Sometimes we become discouraged because we hear so few favorable comments; let us be thankful we do not hear all that are unfavorable.

Hairs on the Human Head.

The authority says an average head of hair may consist of as many as 1,0,000 hairs of the darker shades, and red hair about 30,000. A count of the hairs on a square inch of scalp of numerous heads gives an average of 1,000 per square inch; on certain other heads the figures are more

YOKOHAMA IN FLAMES

This picture shows the fire which destroyed 3000 homes in Yokohama several years ago, making 25,000homeless. The eye must multiply th is scene many times to achieve a picture of the present havoc wrought by fire, quake and tidal dave in Yokohama and Tokio.

Wisdom of Providence.

There is a sort of economy in providence that one shall excel where another is defective in order to make men more useful to each other, and mix them in society.—Addison.

Optimistic Thought.

If we desire to avoid insult we must be able to repel it.

Looks Like a Pull in Some Cases.

Even the Hall of Fame needs a catalogue explaining to many why those in it are there.—St. Louis Globe-Democrat.

Glycerin From Shark's Liver.

In a shark's liver the content runs from 65 to 70 per cent of finest oil, of which about 10 per cent is glycerin.

WOULD BETTER HEALTH HELP YOU GET THAT SALARY RAISE?

There are lots of people who are neither very sick nor very well, but who seldom really feel at their best. Sleep does not refresh them as it used to and they get up for work feeling drowsy, dull and tired—easily upset with indigestion, nervous and often constipated. Consequently they cannot do their best—they can't put enough strength, energy, ambition and pep into their work to become leaders and increase their earnings.

FACE THESE FACTS! Build your self up! Take a good tonic, as your doctor would advise. Let Dr. Thachers' Liver and Blood Syrup do for you what this strengthening, nourishing vegetable tonic has accomplished for countless numbers of men and women. Increase your appetite, tone and stimulate your digestion, soothe and nourish the overtaxed nerves, wake up the sluggish liver, gently correct constipation and send purer, healthier blood coursing through your veins.

TRY THIS TONIGHT; Take a delicious tablespoonful of this nourishing, strengthening tonic after the next few meals. Feel like doing a bigger day's work with enough strength, energy and "pep" left over to enjoy evenings with the family. Your druggist will promptly refund the cost unless you really notice a quick difference in the way you look, eat, sleep and feel.

Get it in Clearfield at Stewart Drug Co., and at the leading druggists in every town.

ONION GROWERS WILL SELL CO-OPERATIVELY

Large Portion of Indiana Acreage Under Contract.

Sixty per cent of Indiana onion acreage is under contract to sell co-operatively, according to the general organization committee of onion growers formed by the Indiana Farm Bureau federation.

The various county associations and the Indiana Farm Bureau Onion exchange will be immediately completed by holding elections in which the contract signers elect their boards. This duty has been delegated to the central organization committee, under the erecting of an elections committee from all counties, who will canvass the vote and announce the results.

Notices are being sent out to all members that the minimum has been secured, and the contracts go into effect at once. The farm bureau and general organization committee has been instructed to proceed at once in securing commitments for finance, personnel, storage, equipment, subject to the approval of the board elected by the onion growers. In this way no time will be lost and the associations and the exchange will be ready to function by the time the crop is fully matured and ready for harvest in good shipping condition.

The exchange expects to handle at least a third of the Indiana onion crop this year. Ballots for the election of directors will be sent out this week, and the results tabulated and announced the first week in August. It is expected that further business plans will be ready for announcement by that time. Further memberships are accepted at any time until the close of the sales for the season.

The Indiana onion marketing plan was prepared by the department of co-operative marketing of the American Farm Bureau federation.

Thought for the Day.

There is as much difference between wealth and worth as there is between making a living and making a life.

True Wisdom.

Wisdom consists not in seeing what is directly before us, but in disposing those things which may come to pass.—Terrence.

DOCTORS WANTED TO OPERATE

Mrs. Quillen Tells How Lydia E. Pinkham's Vegetable Compound Saved Her from an Operation

Muskegon, Michigan.—"After doctoring for eight or nine years with different physicians without any relief at all, they said at last that medicine would not reach my case and I should have an operation. I had heard of Lydia E. Pinkham's Vegetable Compound and often saw advertisements of different papers where some women had suffered just as I did and got well and strong again by taking the Vegetable Compound. I decided to see what it would do for me and before I had finished the fourth bottle I was much better, the weakness stopped and the severe pains in my sides left me. I am now much stronger and do my own work and work in the factory besides. I am telling the Vegetable Compound and you may use this." - Mrs. NELLIE QUILLEN, 1 Mercer St., Muskegon, Mich.

We would heed such warning symptoms as bearing-down pains and weakness, for they indicate some female trouble and we advise a tried and faithful remedy, Lydia E. Pinkham's Vegetable Compound and we feel sure it will help.

...Foster, promoter of the ...n" idea in America, is ... been the dominating ...s preceding the massa... ...g among his aides Jack ...go editor of the Voice ...k Doscnburg, Carney's ...ger, Arne Swabeck, of the central executive committee, Communist Party of America, Oscar Larson of the Young Communist League, Gus Fraenckel, extremist worker among rail employes, Charles Krumbein, district Communist official, and Nels Kjar, convicted in Chicago courts for conspiring against the government during the war.

Lewis' Wire "Twisted."

The article continues:

"The plan was to have simultaneous uprisings in southern Illinois and, if possible in the vicinity of Bel... Ohio, which also was a hotbed of Communist agitation, and in the Uniontown, Pa., region.

"A telegram to local union officials at Herrin by John L. Lewis, president of the United Mine Workers, placing workers of the strip mines in the category of strike breakers was shrewdly twisted and distorted, according to the boast of the Communist leaders at Chicago, into an invitation to attack the strip mines and the workmen employed there.

"Officials of the United Mine Workers had no intimation that an attack was contemplated, or that a conspiracy within the Communist Party of America existed at the time to precipitate a tragedy such as took place the day after the telegram was received from President Lewis."

Many Vicious of Wild Beasts.

China than is to her long history, has been able to rid herself of the most dangerous animals but in Korea a local species of tiger perhaps the largest and fiercest in the whole family, annually kills 2000 peasants Siberia, again is affected by the ravages of wolves and bears whose victims run into thousands every year.

Hard to Place Blame

Jud Tunkins says after throwing all his lightning rods away he learns that there's a valuable protection He don't know who's responsible for the mix... the scientists or the ad writers.

Elephant More Intelligent

Some idea of an elephant's ...lities may be reached by comparing him with the dog with whose intelligence we are familiar. Making allowance for the dogs opportunities under many training science has come to doubt whether the most exceptionally intelligent dog possesses comprehensive faculties equal to those of the adult wild elephant fresh from the jungle.

Copied Monarch in Wearing Wigs

It was in the Seventeenth century that the wig found its maximum development in the period The Abbe L... Rivers it appears started it all by attending the court of Louis XIII in a wig The king who was prematurely bald thought it an excellent idea and in adopting it for himself, made it obligatory among genteel courtiers.

Woman Cost Who Vers.

South American coffee and cotton planters say the women and children work better than men though their labor is rewarded with a lower wage. Women barter in fruit vegetables and dress goods as "dust traders" on the steamships which ply between West Indian islands In Grenada they act as blacksmiths shepherds carpenters and carriers.

Saved by Airplane

A woman scientist dying from tetanus, produced by an accidental gunshot wound while collecting snakes and insects in the woods of Panama, was recently rescued by an airplane flying over the camp and dropping the necessary serum.

Can You Do It?

Fame is fleeting just how fleeting is shown by the fact that for the life of us we can't remember what half the men did to get cigars named after them.

Uncomfortable Shaving Process.

Razors are not allowed in the Wiltshire county asylum at Devizes, England, and those who desire to be shaved have to use pumice stone, according to report of the commissioner under the board of control Safety razors have been recommended.

Bacillus in Bread.

The Welch bacillus, a tiny plant found in infected wounds, is also thought to be the active agent of a "starter" used in the manufacture of salt rising bread.—Indianapolis News.

Venus de Milo.

The famous statue of Venus known as the Venus of Melos was found on that island by a farmer in 1820 and removed to the Louvre, Paris. It was probably done in the Fourth century before Christ.

New Ms. of St. John's Gospel

Among the recent important discoveries of the archeologists and to many the most important of all is an ancient papyrus manuscript with one of the earliest examples of the Gospel of St John This was beautifully written in Coptic about 400 A. D., the date of the earliest copies of the Greek text that are known, it will have a deciding voice as to what was accepted as the authority in Egypt. It is reported that it varies all through from the known manuscripts in many details.

Ten Best Authors

If there are ten best authors in America, you may count on practically all of them to appear in coming issues of

THE LADIES' HOME JOURNAL

Booth Tarkington should head any list, and his new novel, *The Midlanders*, begins in an early fall issue. Then comes a great "woman in business" romance, *"His Worldly Goods,"* by Sophie Kerr.

Zane Grey will follow almost immediately with *The Thundering Herd*, a stirring story of the last days of the buffalo and the Indian fighters.

The other seven on this particular list of ten are Joseph C. Lincoln, Clarence Buddington Kelland, Herbert Quick, Corra Harris, George Weston, Hugh MacNair Kahler and Eleanor Hallowell Abbott.

But fiction is only *one* department of The Journal. You can bank on its trustworthy fashions, cooking, canning, needlework, dressmaking, homekeeping and countless other features—good things for all the family which I haven't space to mention.

May I show you a recent copy? You'll be surprised at the wealth of good things $1.50 will buy.

WAR PIVOT

The old fort at Corfu, bombarded by the Italians and later occupied by them. American Near East Relief workers were among those under fire and say they will appeal to the State Department of the United States against the action of the Italians.

MELLON TO URGE REDUCTION IN HIGH INCOME TAX

Washington, Sept. 11.—Secretary of the Treasury Mellon today directed tax experts to compile data to enable him to go before Congress with a recommendation for a reduction in the higher income surtaxes.

He will urge that they be cut from a maximum of 50 per cent to 25 per cent. It is hnderstood that President Coolidge will support the recommendation and make it an Administration measure.

On good authority it is learned that Secretary Mellon has decided that a reduction of the so-called confiscatory tax on higher incomes will not work a hardship on the less wealth or poor classes. Instead of bringing money into the Treasury, he finds the large incomes are being converted into tax-exempt securities at the expense of other taxpayers.

This was demonstrated when the late William Rockefeller died. He owned $40,000,000 worth of tax-exempt securities. Other rich men took their money out of business and invested it in tax-exempt-securities to avail the excessive and near-confiscatory sur-taxes and Secretary Mellon seeks to get this capital back into business and industry by lowering of the taxes on big incomes and which he believes would greatly increase the tax yield.

Progress "want" ads bring result

"Spring Cleaning" Old Custom.

What we call "spring cleaning" is said to go back to the Passover. From that time there has been a custom whereby everything in a house should be cleaned in the early part of the year. The custom was common among the Jews, especially those who settled in Holland, and gradually the whole Dutch nation became imbued with this idea. From the Netherlands the custom spread to England.

The Ananias Club.

"I have the prettiest stenographer in town," said the tired business man. "But she always leaves her vanity case in the cloak room and I have never seen her stop in the middle of writing a letter to powder her nose."—Cincinnati Enquirer.

Prized Prints of Old Canada.

The public library of Toronto now possesses the largest and most valuable collection of prints of early life in Canada in existence. The collection includes nearly four thousand engravings, prints and paintings.

Highly Prized Decoration.

The British Victoria cross, given for conspicuous bravery, was instituted in 1856 on the close of the Crimean war, and was given to citizens who had borne arms against the Indian mutineers. In 1911 the decoration was extended to the Indian army. A bar may be awarded for an additional act of bravery. With the decoration is a pension for noncommissioned officers and men of £10 ($50) a year; with an addition of £5 ($25) for each bar.

HOW TO FORGET TROUBLES

TROUBLES knock up your system like Jack Dempsey knocks down his opponent.

Troubles deal blows both in the head and stomach—and they hurt the stomach more than they do the head!

Troubles give the stomach indigestion, slow up the liver—and then follow constipation and biliousness.

The way to get rid of troubles is to invigorate digestion, stimulate liver and bowels and tone up the entire system. The best way to do this—has been for the past 80 years—is to take Beecham's Pills.

Then you will feel so good that "troubles" become merely problems, to be solved readily by the clear, keen brain of health.

At All Druggists—25c and 50c

Barratry and Mutiny.

Barratry is a sea crime which is committed when a master or a crew do any unlawful acts tending to their advantage and to the detriment of the owner of a vessel. Mutiny is a concerted revolt against the rules of discipline or the lawful commands of a superior officer.

COOLIDGE BOOMED FOR PRESIDENT AT CHICAGO-ST. LOUIS

Chicago, Sept. 11.—Coolidge-for-President clubs have been formed in Chicago and St. Louis with the avowed purpose of obtaining support for the President at the next Republican National Convention, although President Coolidge, in a letter to the Chicago Club, said he preferred the club support his Administration and contribute to its success.

Formation of the St. Louis club with Hugh Wagner, former member of the Missouri Legislature and chairman of the greater St. Louis Conference, as President; Edward H. Bauman former State Senator, vice-president and Charles F. Meyer, secretary, was announced yesterday. The Chicago club was incorporated last week.

"I have given no thought to the matter to which you refer," the President's letter said, "and I am merely doing what I can to take up the burdens of my office. I very much prefer to discourage thought and activity in any other direction.

"The task before me is to carry to successful conclusion the policies inaugurated by President Harding. And I am sure you will understand that if I ask your help to this end, rather than in the way you have suggested it shows no lack of appreciation of your kindness."

DEALER PLEASED BY PROSPECT OF INCREASED DODGE BROS. PRODUCTION

"Nothing was more gratifying to Dodge Brothers dealers than the recent announcement of Dodge Brothers that they were erecting an immense new assembly building and other new units which would enable them materially to increase their production," said Wm. H. Soiple, local dealer for Dodge Brothers, in viewing the sales prospects for 1923-4.

"Although the factory has been enlarging its facilities year after year, it has never been able to meet the demand," he added. "This was true even for the fiscal year ending in July, 1923, during which period approximately 200,000 Dodge Brothers motor cars were built and sold. If Dodge Brothers dealers were able to make such a phenomenal record last year, it is easy to see that they will do even better during the next fiscal year as the present line of cars represents a much greater value than ever before. The cars look better and ride better, and yet they retain all the former advantages of economy and dependability that accounted for the enormous demand of the past.

There's All the Difference.

Reading the silly magazines as one does on vacation, we note that the best just now is articles by husbands on "How My Wife Has Hindered My Career." You don't see women blurting about their incumbrances this way. Why? They are the practical sex. When a woman finds her husband a hindrance she doesn't talk. She acts.—Chicago News.

Three Hard to Find.

Hubbard says are [illegible] genus of orchid, of which about [illegible] species are natives of the eastern states, says Nature Magazine. They are partial to low, moist [illegible] so that the seeker must be willing to risk a wet-footed search of our most forbidding bogs and swamps. The blossoms are so exquisitely dainty that the finding of them is well worth the [illegible] trouble and discomfort.

Source of Alaskan Revenues.

Ninety per cent of Alaskan revenues are derived from fisheries, mining and forests.

Improved Aerial Photography.

Formerly only an area of three quarters of a square mile could be covered with one picture taken by aerial photography, but a new method has been worked out by which it is claimed that an area as great as fifteen square miles can be shown on each picture.

World's Period of Disgrace.

From the beginning of time there have been soothsayers, crystal gazers and necromancers—and we have them yet. It was not till about the time of Columbus that the world lost its head over witchcraft and for two or three hundred years managed to write some of its most [illegible] pages of history.

[illegible]

The question as to what the science of music and its study should be has been discussed by philosophers and musicians for some 2,500 years, but as yet a generally approved definition has not been formulated. A common definition, but one held inadequate, is that music is the science of tones, or the science of melody and harmony.

Where the Trouble Lies.

It would be much easier to resist temptation if we were never tempted to do any but unpleasant things.—Summerville Journal.

"Overt" Act.

Overt, in law, means evident or undisguised, and an overt act, according ly, is one which may be clearly proved and was manifestly intended.

Akron, Ohio

GIVE THE KIDDIES LOTS OF OUR MILK

The kiddies have started on their year's school work and it will be necessary to keep them up to the highest physical efficiency in order that they make the marks you'd like to have them make.

Their bodies must be nourished in the same ratio as their brains and you will find that a diet which consists of plenty of our milk will keep them fit.

All the nutriment that is needed is in our milk and it is as pure as the driven snow. All the disease possibilities have been removed through the pasteurization process.
